Q&A

1.

Q: What should I do if the desk wobbled after installation?

A: Please make sure that the oblique support (D) is no bend and it was well installed. If the oblique support (D) is bent, you can try to straighten them directly by hands. If the problem was not caused by oblique support (D), please try to reinstall the crossbar (A & B) and legs (C). If the desk still shakes after two ways are tried, please contact customer service.

2.

Q: What if there is a gap between the desktop panels?

A: Reinstall the two crossbars (A & B). Firstly, use the screws to slightly tighten up the crossbars (A & B). Second, align the crossbars (A & B) with the screw holes on the desktop panels (E & F) and then tighten them with screws. Lastly, tighten the screws between the two crossbars (A & B). If there is still a gap after re-installation, please contact customer service.

3.

Q: What should I do if I lost parts during installation?

A: If the product parts were lost, please look for them in the shipping box at first. If you can't find it, please contact customer service, they will resend the replacement parts or provide other solutions for you.

4.

Q: What should I do if I find broken parts during installation?

A: If there were broken parts, please contact customer service and tell them what send pictures of the broken parts. They will send the replacement parts or provide other solutions for you after the customer service confirmed.
