

MYATU

bike User's Manual

Safety instruction

1. Thank you for purchasing the MYATU E-BIKE. The E-BIKE features the most recent innovation in technology.
2. For Safety reasons, it is most important that you read this USER MANUAL **BEFORE** you operate the bike. Improper handling can reduce its riding performance and most importantly, pose danger to your safe and healthy.
3. For handling and maintenance of the bicycle, please refer to the E-BIKE User Manual which is an integral part of this e-bike User manual!
4. Do not at any time dismantle or disassemble any of the above e-bike components!
5. Please check all parts are tighten and locked before riding.
6. Please make sure that the charger and battery charging plug are always kept dry and never get wet.
7. The charger should only be cleaned with a dry cloth. Never use a wet cloth, oil or any other liquid.

Instruction

Display operation

◆ Functional Area Distribution

Operation Cautions

Be careful of the safety use. Don't attempt to release the connector when charging the battery.

- Avoid the risk of collision.
- Don't modify system parameters to avoid parameters disorder.
- Make the display repaired when error code appears.

Battery: further information and maintenance

1. How far full charge battery can go? That depend on the loading weight, road condition and battery capacity. But in the same condition, average speeds can continuous longer travel range.

2. When storing the battery for a longer time period, (e.g. during winter time) it is important to place the full charged battery on a flat surface in a dry place.

3. **Attention:** The battery should be re-charged once every **2-3** month when it is not used. When not in use, is essential for the life-span of the battery.

4. **Warning:**

- a. Keep the battery out of reach for children.
- b. Never try to open the battery.
- c. If the battery is damaged because it has been dropped somewhere or because of a biking accident, there might be a risk of electrolytes leakage. Beware of chemical burns! And immediately stop using a damaged battery.
- d. Do not touch the battery without a cloth or gloves and make sure no acid touches your eyes.

Charging

1. To charge the battery with the bike, simply place the bike within reach of the power supply and plug it in. **Note:** The plug hole is located in the left of the controller.
2. The RED light indicates it is in charging and GREEN light indicates the battery is fully charged. (Please put off plug from wall) Usually the charging time is 4-6 hours depends on the battery capacity remain.
3. **Warning:** Charging time over 10 hours is prohibited please kept it away from high temperature environment and stores it in a cool place.
