1 Information For Users

Important safety instructions

Before using the appliance, read the tips or warnings in this manual and on the appliance and the following should be observed when using it.

- To reduce the risk of fire, electric shock and injury, children under 8 years of age should not operate, clean or maintain this appliance.
- The appliance must be used by minors under parental supervision to prevent children from playing with it as a toy or sitting on it.
- Do not operate or maintain this equipment other than in accordance with the manual or the instructions on the equipment.
- If the equipment does not work properly, please refer to the troubleshooting table in this manual to check yourself, or contact customer service for feedback and action.
- The appliance is suitable for use in dry conditions only. Do not leave the appliance outdoors or on wet ground, and do not allow the appliance to be immersed in water.
- Do not install or use this appliance in a bathroom or within 5 metres of a sink.
- Do not touch the plug or switch with wet hands.
- If the power cord or plug is damaged, do not continue to use it, please contact customer service immediately.
- Make sure that the power cable is properly positioned so that it cannot be stepped on, tripped over or damaged by pressure.
- When unplugging the power supply, hold the plug and do not pull on the power cord.
- Do not bend, tangle or pull the power cable to prevent it from overheating.
- Unplug the appliance if it is not to be used for a long period of time or before servicing or maintenance.
- Do not use the ozone-cleaning function unattended to avoid the risk of pets getting inside the appliance.
- It is forbidden to stack objects on top of the equipment to keep the equipment clean and dry.
- It is strictly forbidden to use the equipment in an environment where flammable and explosive substances are present.
- It is strictly forbidden to place the equipment in a heat source, fire source or other high temperature environment to avoid dangerous situations such as fire.
- The appliance must not be used in a cabinet or in a space where the overall environment is too confined, affecting air intake, air output and moisture removal.
- After using, wash the tray and dry it to keep the machine in a clean and dry condition.
- Only use the matching power cord with this equipment, otherwise damage to the equipment or even fire may result.
- Please do not dismantle, modify or repair the equipment yourself as this will result in the loss of all warranty and service rights.

SPECIAL TIPS

- Always use all functions of the appliance in the presence of the owner.
- If your pet is stressed during drying, reduce the wind speed and observe, if it still reacts violently, you need to stop drying process immediately.
- If your pet is over 7 years old or has a special condition such as an illness, please consult customer service and use the equipment under their guidance.
- Do not move the appliance while your pet is inside .
- Do not place cushions, pillows, towels or other objects inside the appliance to prevent the air vents from blocking and causing abnormal temperatures.
- If you find abnormal heating or unusual noises in the appliance, please contact Customer Service as soon as possible.
- Only water-soluble liquids can be used in the care solution, oil-based liquids are prohibited (maximum capacity of the reservoir is 25ml).
- Recommended for: Cats and small dogs weighing less than 9kg.
