SR-616 USER MANUA

Seaoura planted aquarium extendable LED light

Email:support@seaouraofficial.com

Seaoura planted aquarium extendable LED light is intended for planted aquarium lighting. Please read this manual carefully before using and follow the instructions carefully.

1. PRODUCT FEATURES

Super bright: Premium 2835 LEDs provide bright illumination for your plants and fish and enhance the aesthetic appeal of your tank.

Adjustable timer: Lighting time can be programmed to 6H, 10H, and 12H.

Adjustable Brightness: Seaoura lighting mode can be adjusted to 10-level brightness. (10%-20%-30%-40%-50%-60%-70%-80%-90%-100%)

This fish tank light will cycle at the same time the next day.

Easy to maintain: Built-in smooth abs housing. Use a piece of a dry towel to wipe it clean.

Extendable bracket: Extendable bracket makes LED light fits different size aquariums in an extendable range.

Suitable for plants and freshwater: The full-spectrum bulbs can produce different colors and brightness depending on your option.

Power Cord	4.9ft+2.3ft	4.9ft+2.3ft	4.9ft+2.3ft	4.9ft+2.3ft	5.9ft+2.3ft	5.9ft+2.3ft

3. METHOD OF APPLICATION

A.Open the box and check whether the light and other accessories are included. if parts are missing, please get in touch with the seller's support email.

— 1 —

B.Expand both sides metal bracket fit to match the length of your aquarium.

C.Connect power supply with light, then plug in. Ensure a drip loop is created before the outlet, as shown on the warning.

Press the button 2 Seconds to turn on the light. Use one long-press of the same button to turn off the light.

There are three color modes for your option. (All lights on, White/Red/Green/Pink, Blue light)

All mode lights, When you choose all lights on mode, all the indicators will be off. You can adjust the brightness by the button.

In white/Red/Green/Pink mode, you can click the button to choose this mode and click the on/off button to control the White/Red/Green/Pink brightness.

For example, click the button (W light indicator flashing) and clicks the button to adjust the (white/red/pink/green led beads) brightness from 10 levels.

10%-20%-30%-40%-50%-60%-70%-80%-90%-100%-90%-80%-70%-60%-50%-40%-30%-20%-10% -0% (white/red/pink/green led beads light off)

Blue light, you can click the button to choose this mode and click the button to control the blue brightness.

For example, click the button (B light indicator flashing) and clicks the to adjust the (blue led beads) brightness from 10 levels.

10%-20%-30%-40%-50%-60%-70%-80%-90%-100%-90%-80%-70%-60%-50%-40%-30%-20%-10% -0%(blue light off)

Please choose the color mode before choosing the timer. Otherwise, it will exit the timer function.

When you want to close the light (All lights off), click the button for 2 seconds

Press the button to choose 6/10/12 hours, and the indicator light on the top of the timer button turns on.

For 6 hours, the “6H” indicator light flashes; for 10 hours, the “10H” indicator light flashes; for 12 hours, the” 12H” indicator light flashes.

— 2 —

For example, if you choose 6H at 9 AM, this light will auto turn on at 9:00 AM and turn off at 3:00 PM daily. Once set up timer lighting mode, the next day, the light slowly ramps up in 15 minutes and down at last 15 minutes. Once it is set, the light will auto-turn on and off simultaneously every day.

NOTE:

1. This timer mode will be worked for 24 hours lighting cycle
2. When the power is cut off, the lamp will restart, calculating the previous timing. Such as, if it is timed for 6 hours, it will start counting again for 6 hours after the power is turned on.
3. Please remove the film before use.

4. ATTENTION:

- ✓ Please read the manual carefully before using it and follow all instructions.
- ✓ Please keep the switch away from water, which is not waterproof.
- ✓ You might void the warranty if the lamp body is accidentally dropped in the water.
- ✓ Please keep the light away from flammable items.
- ✓ Please unplug the power and contact the seller if the light is not working correctly, *For your safety, it is not recommended to disassemble the lamp. Disassembly of the lamp will void the warranty *
- ✓ Please unplug the power before maintenance.
- ✓ Please remember that the temperature range for the light is 23~113°F.

5. PACKAGE INCLUDES:

- 1x Led Light
- 1xAC/DC power adaptor
- 2xMetal brackets
- 1xUser manual

⚠6. WARNING: Do not immerse the switch and the lamp in water to avoid possible electrical shock. If the switch falls into the water or becomes wet, do not touch it until you have unplugged it. Basic safety precautions should be observed, including the following:

- 1.Read and follow this user manual strictly.

— 3 —

- 2.DANGER- To avoid possible electric shock, special care should be taken. For each of the following situations, do not attempt to repair yourself; return the light to an authorized service facility for service or discard the light.
 - A.Carefully examine the light after installation. It should not be plugged in if there is water on parts not intended to be wet.
 - B.Do not operate the light if it has a damaged cord or plug, if it is malfunctioning or if it is dropped or damaged in any manner. The power cord of this light cannot be replaced, if the cord is damaged, the light should be discarded.
 - C.To avoid the possibility of the light plug getting wet, position the aquarium stand and tank to one side of a wall-mounted receptacle to prevent water from dripping onto the receptacle or plug. A "drip loop," shown in the figure below, should be arranged by the user for each cord connecting the light to the receptacle. The "drip loop" is the part of the cord below the level of the receptacle or the connector. Suppose an extension cord is used to prevent water from traveling along the cord and coming in contact with the receptacle. If the plug or receptacle does get wet, DO NOT unplug the cord. Disconnect the fuse to the circuit breaker that supplies power to the light. Then unplug and examine for the presence of water in the receptacle.
- 3.Close supervision is necessary when the light is used near children.
- 4.To avoid injury, do not touch or move hot parts.
- 5.Make sure the light is securely installed before operating it.
- 6.Read and observe all the important notices on the light.
- 7.If an extension cord is necessary, a cord with a proper rating should be used. A cord rated for fewer amperes or watts than the appliance rating may overheat. Care should be taken to arrange the cord so it will not be tripped over or pulled.
8. The light is intended FOR HOUSEHOLD USE ONLY.
9. SAVE THIS USER MANUAL.

7. WARRANTY:

- 1.1-year free warranty.
- 2.1-month free return.
3. Free replacement for three months.
