Gravity Water Filter System L630A

Intended use

Miniwell gravity water filter system is designed to turn natural fresh flowing water into drinkable water instantly. It is ideal for group and family hiking, camping, trekking or emergency preparedness and survival to satisfy water demand.

Features

- Filter up to 2000L water. Those larger than 0.1 micron cannot pass through the membrane.
- Fast flow rate of 600ml/minute
- Slidelock design reservoir with wide-mouth opening for fast, easy filling.
- Convenient carry handle and anti-slip tree Rope.
- Water filter lifespan can be extended by clean water backwashing.
- Ultra-light and versatile L630 water filter can be attached to 28mm thread disposable bottle. (such as pop bottle)

Filter Technical Specifications

Filtration Pore Size:	0.1micron
Size:	40*146mm
Weight:	45g
Material:	ABS, Ultra Filtration Membrane (medical grade), silicone, PEVA
Temperature Range:	0℃ -100℃
Filtration Capacity:	2000L
Water Flow:	600ml/min
Shelf Life:	5years
After First Use:	3years

Included Accessories

- Suspension Rope and Carabiner
- 1L Collapsible Bottles
- Carry Bag
- Water Filter
- Hose and Hose Clip
- 3L Clean Water Tank
- 3L Unfiltered Water Reservoir

How to Use

- 1 Connect hose to water outlet of water reservoir.

- 2 Unlock roll-top seal of reservoir by sliding (See Open Arrow Direction)

- 3 Close hose clip. Scoop water from fresh water source.

- 4 Lock roll-top seal of reservoir by sliding
(See Closed Arrow Direction)

- 5 The rope twines around the trunk. Hang water reservoir on carabiner.

6

- 6.Purge air from hose by allowing raw water flowing through hose.

- 7 Connect filter according to arrow in the direction of water flow.

8

- Clean water tank can be screwed on water filter outlet.

Cleaning and Maintenance

When flow rate slows, Miniwell water filter can be back-flushed with ease.

- 1 Fill collapsible bottle up with clean water and screw it on water filter outlet.
- 2 Invert and squeeze bottle to start clean flow into filter and back flush.

Versatile Design Water Filter

- 1 Miniwell Gravity Water Filter System
- 2 Attach to 28mm Thread Disposable Water Bottle

- 3 Drink directly from Fresh Water Source

Frequently Asked Questions

1. How often do I need to backwash the filter?

It depends on your water source quality. When you feel flow rate slow down, backwash can improve flow rate.

2. Can I use water filtered from the system itself to backwash the filter?

Yes, filtered water can be used to backwash. Collects filtered water by clean collapsible bottle. Squeezes clean water into filter from filter outlet.

3. Does it filter saltwater?

No. Filter filtration pore size is 0.1micron. Dissolved salt passes through 0.1micron membrane. Miniwell filter keeps mineral from nature freshwater sources in filtered water.

4. Can I suck water from a river through it?

Yes. Natural fresh water can be water source. Waterborne thing larger than 0.1micron can not pass through the membrane in filter.

Caution

Read this usage and safety instructions carefully before using Miniwell gravity water filter system.

1. Miniwell gravity water filter system is a water filtration tool and should only be used for filtering natural and flowing freshwater. The quality of the filtered water is not guaranteed if the product is submitted to conditions other than those encountered during its normal use.
2. Don't choose human or industrial wastewater as water source.
3. Discard the first 200ml of water on first use.
4. Do not drop the product in polluted water as this might contaminate the membrane.
5. The product should be cleaned thoroughly before storage.
6. The product must not be used by children without the supervision of an adult.

Disclaimer

Miniwell gravity water filter system and its affiliated entities and related companies shall be neither liable for any damages arising out of or as a result of the use of Miniwell gravity water filter system for any purpose other than for which it is clearly intended, nor for any malfunction resulting from the failure of the user of Miniwell gravity water filter system to strictly abide by the usage and safety information contained in this manual.

Your use of Miniwell gravity water filter system implies that you accept and agree to these terms, conditions, and disclaimer.
