About the VLeaF GO

The VLeaF GO is the first all in one on-demand convection vaporizer on the market. On-demand means you no longer have to wait 30s or more for the device to heat up. It means you can start vaping as soon as you press fire. It also has the session mode for you to vape through water pipe or vape without holding the button. The VLeaF GO has 3 temperature levels for choice and a replaceable ceramic heater for easy clean. The last but not the least, to vaporize through water, just insert the cap of VLeaF GO into the down stem of your water pipe without any connectors.

Features:

On-demand Vaping

Session Mode

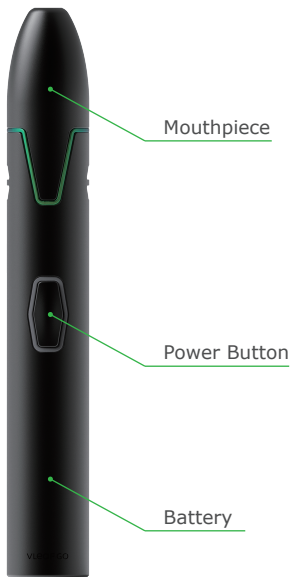

No Need Adaptor for Water Pipe

3 Temperature Levels

Replaceable Ceramic Heater

Convection Heating

About the VLeaF GO

List of Components

The VLeaF GO kit comes with the following:

1 * VLeaF GO

1 * Quick Guide

1 * USB Cable

1 * Cleaning Brush

1 * Packing Tool

List of Components

1 * Silicone Mouthpiece Cover

1 * Air Cooler

1 * O Ring
(For Chamber)

2 * O Rings
(For Scoop)

1 * Chamber

1 * Scoop Seal

1 * Mesh

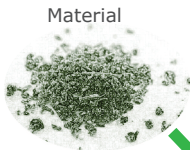

1 * Mesh Ring

Getting Started

1. Pull out the top cap.
2. Grind your material.

Material

3. Use the scoop to load your material.

Getting Started

4. Use the cap to pack down your material.

Getting Started

6. Press the fire button 5 times to power on/off.

7. Instant Mode:

Press and hold the fire button to vape. Doing several consecutive puffs leading to a longer inhalation when the device is cold may help extract vapor faster. Inhaling for 10-20 seconds (while holding the fire button) produces good extraction.

Selecting Temp.

Press the fire button 2 times to select between low (green), medium (yellow), and high (red) temperatures.

LED Display

The LED light indicates both your temperature levels and battery levels.

Temperature Levels

LOW

GREEN

MEDIUM

YELLOW

HIGH

RED

LED Display

Quickly press the fire button 1 time to check the battery level.

Battery Levels

Full:
Constant green light

GREEN

Medium:
Yellow light flashes slowly.

YELLOW

Low:
Red light flashes quickly.

RED

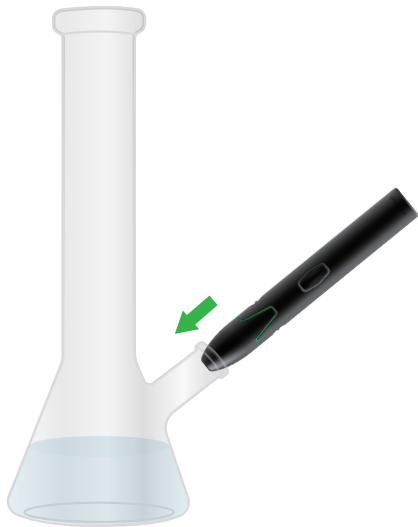

Session Mode

Press the fire button 3 times to start session mode where the device stays on for 30 seconds without the need to hold down the button (quickly press the fire button 1 time to turn off session mode).

Attaching Waterpipe

To vaporize through water simply remove the silicone mouthpiece cover and insert the cap into the down stem of your waterpipe as shown below:

Cleaning

1. Remove the rest vaporized flower using the extended section of the cap. If needed use the cleaning brush to remove any residue.

2. Remove the scoop assembly by twisting it counterclockwise. Disassemble the scoop by taking out the chamber and seals.

Remove air cooler and mesh screen from the mouthpiece.

Cleaning

3. Soak parts in 50% isopropyl alcohol for 10-20 minutes.

4. Rinse the scoop assembly with water and dry off. Install the scoop assembly by twisting it clockwise until it clicks into place.

Warranty

Vivant Product Replacement

This warranty provides free replacement of an authentic Vivant product if it malfunctions due to manufacturing defects. This warranty does not cover any damages outside of expected normal use.

Void of Warranty

Any one of the following conditions will void the warranty:

1. Failure to provide original receipt of purchase.
2. Product failure or damage due to improper use or unauthorized repair or alteration.
3. Product failure or damage due to the use of excessive force or user negligence (i.e. dropping the device, submerging the device in liquids, etc.).
4. Product failure or damage caused by using incompatible parts or wires (i.e. using the wrong power cable, etc.).

Voiding the warranty is not limited to the conditions stated above. This warranty only covers authentic Vivant brand products and is valid for two years from the user's date of purchase.
