# How to set up my device on the Windows system?

Connect your device to the computer at first.

1. Setting the sound
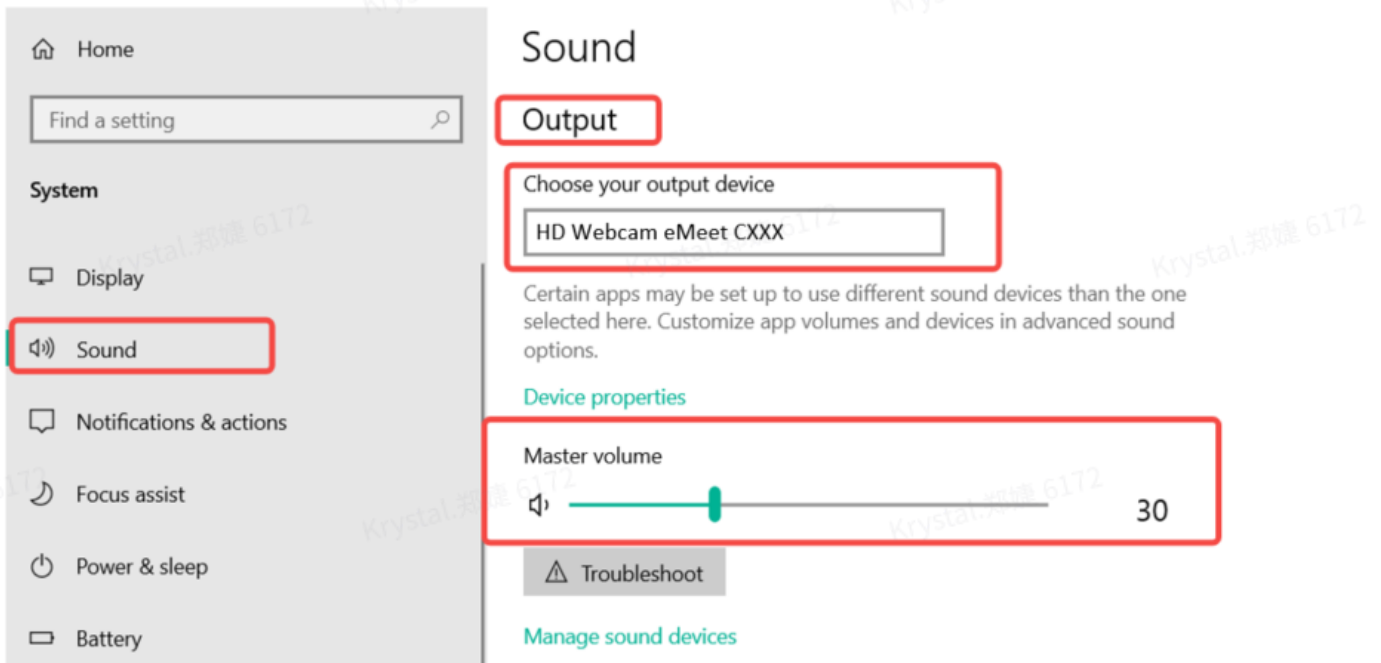

Right-click the 🔊 from the lower right corner of the computer, then open the sound setting.

## Testing your EMEET CXXX speaker on your computer

Kindly remind: Only C980 Pro, C990, Jupiter has speaker, which can be selected as the output device.

1. Select **EMEET CXXX** as the output device.
2. Just simply play music or video on any website or software.
3. Adjust the device's volume according to your need.
4. Then you can hear the sound coming from EMEET CXXX.
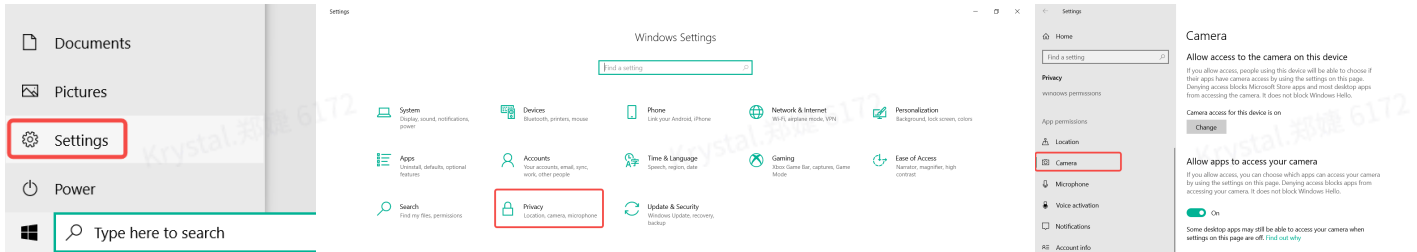

Testing your EMEET CXXX microphone on your computer

1. select **EMEET CXXX** as the input device.
2. Tap the device or say something.
3. Then you can see the volume bar fluctuates.

2. Setting the camera privacy

a. Enter your computer settings.

b. Click "privacy", and then select "camera" to display the settings.

c. Allow access to the camera on this device: click **change** to enable camera access.

d. Allow apps to access your camera: enable permission to use the EMEET camera normally.

Allow apps to access your camera

If you allow access, you can choose which apps can access your camera by using the settings on this page. Denying access blocks apps from accessing your camera. It does not block Windows Hello.

⬤ On

Some desktop apps may still be able to access your camera when settings on this page are off. Find out why

Choose which Microsoft Store apps can access your camera

Turning off an app prevents it from directly accessing your camera. It does not prevent the app from accessing the camera indirectly through the Windows' Camera app. To prevent apps from also accessing the camera indirectly using the Windows' Camera app, you must also turn off access to the Camera app in the following list.

3D Viewer ⬤ On
