### Turning On/Off

Press and hold the central button for two seconds to turn on or off.

**Notes:**  
 ① To turn your Smart Four Connected OFF, you should return to MENU status first.  
 ② If the board is not in use for more than 10 minutes, it will shut down automatically.

### Charging the Board

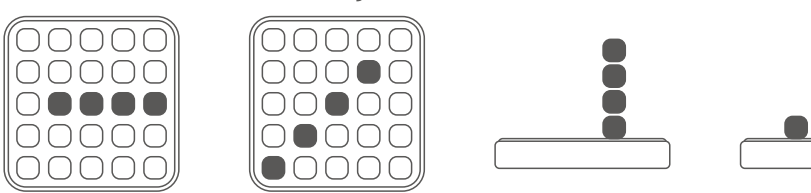

Make sure the battery is fully charged before each use, it takes approximately 90 minutes. Charge the board when not in use. The central button blinks slowly to indicate charging and becomes solid when fully charged.

**Notes:**  
 ① The USB charger is not included in the package.  
 ② Only use the provided charging cable to charge the board.  
 ③ If the board prompts low power, please charge it as soon as possible.

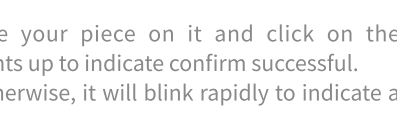

### Menu

The Smart Four Connected has two built-in games: Connect Four and Lights Out. There are seven lighten up buttons in MENU status to indicate different game modes and difficulty levels. You can press the corresponding button to start a game.

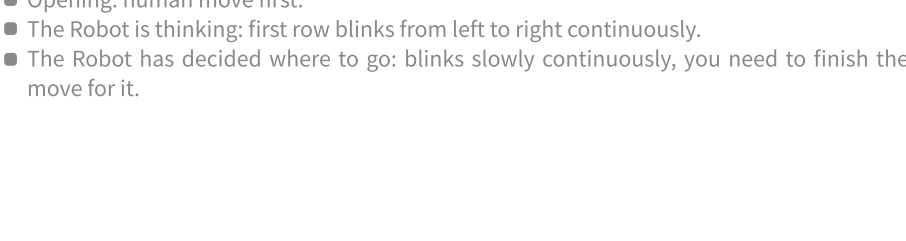

### Mute Settings

Press and hold ANY corner button for two seconds in MENU status, you should notice four corner buttons blink twice to indicate setting successful.

### Connect Four

**How to win**  
 Connect four in a row in any direction!

**How to play**  
 ■ Choose piece color and move in turn.  
 ■ When you have decided where to go, place your piece on it and click on the corresponding button to confirm. The button lights up to indicate confirm successful.  
 ■ Up to 5 pieces can be placed on one button. Otherwise, it will blink rapidly to indicate a wrong move.  
 ■ The board will record each move and flash where the goal is reached.

### Head to Head Mode

■ Opening: either party can move first.

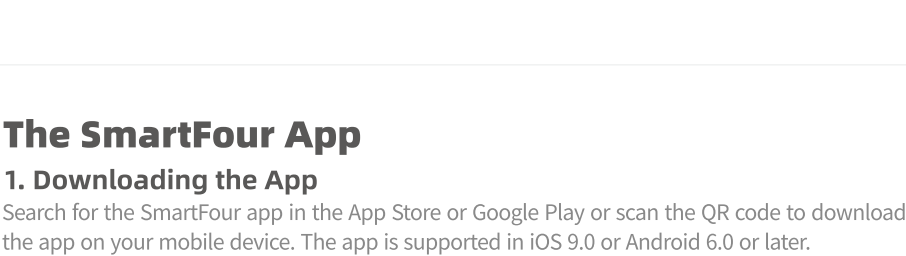

### Robot Mode

■ Opening: human move first.  
 ■ The Robot is thinking: first row blinks from left to right continuously.  
 ■ The Robot has decided where to go: blinks slowly continuously, you need to finish the move for it.

### Lights Out

**How to win**  
 Turn off all the lights!

**How to play**  
 ■ Clicking on a button will toggle its state and adjacent buttons' state: lights that are on turn off, and lights that are off turn on.  
 ■ The inner circle buttons will blink twice quickly to indicate level passed.

### Exit the Game

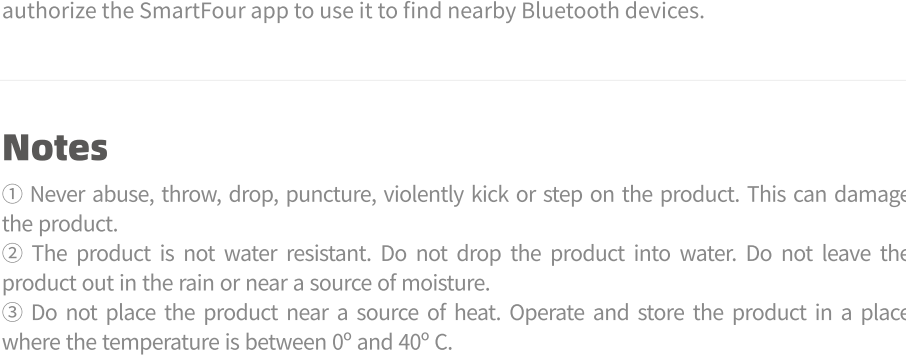

To exit the game and return to MENU status, you should press and hold the central button for two seconds.

### The SmartFour App

**1. Downloading the App**  
 Search for the SmartFour app in the App Store or Google Play or scan the QR code to download the app on your mobile device. The app is supported in iOS 9.0 or Android 6.0 or later.

**2. Connecting to the App**  
 ① Turn on your Smart Four Connected and stay in the MENU status.  
 ② Then launch the SmartFour app and click the Bluetooth logo in the homepage to connect.  
 ③ The board shows solid diamond pattern to indicate connecting successful.

**Notes:**  
 ① The Smart Four Connected is only discoverable when it is in MENU status. Be sure to exit game mode and return to MENU status before connecting to app.  
 ② If you are using an Android device, you might need to enable location service and authorize the SmartFour app to use it to find nearby Bluetooth devices.

 The board may be out of power. Please fully charge the battery, it takes approximately 1.5 hours. You can connect it to the SmartFour app to check battery level.
- Q2: What should I do if the board cannot be charged?**  
 ① Check if the charging cable and power adapter are working properly.  
 ② ONLY use the provided USB type-C charging cable and be sure that it is in good contact with the charging port.  
 ③ When the battery is exhausted, you need to charge it for a few minutes before you can reactivate it.
- Q3: What should I do if the app cannot find my board?**  
 ① Check if the board is in MENU status when connecting to app.  
 ② Be sure that your board is closed to the device you want to connect.  
 ③ Turn off the Bluetooth and back on to make sure it is working properly.  
 ④ For Android devices, check if the location service is enabled.  
 ⑤ Keep away from other wireless devices which might lead to wireless interference.  
 ⑥ Try on other smartphones or tablets.

### Limited Warranty

GIKER warrants that your GIKER hardware product ("the Product") will be free from defects in materials and workmanship for a period of one (1) year from the date of purchase ("the Warranty Period"). If a defect in the Product arises under normal and intended use within the Warranty Period, please contact the authorized GIKER dealer in your country. The authorized GIKER dealer in your country will, at its option and subject to applicable laws, replace or repair the Product with new or reconditioned parts.

This warranty is only valid to the original retail purchaser, accompanied by a receipt or proof of purchase. GIKER does not warrant that the operation of the Product will be uninterrupted or error-free. This Warranty does not apply to: a) Products you purchase from unauthorized dealer; b) Defects in consumables, such as protective coatings designed to diminish over time; c) Defects caused by misuse or failure to follow the product directions, improper installation; product alteration or modification; improper or unauthorized repair; d) Defects caused by accidents, neglect, fire, water, lightning, or other acts of nature; incorrect electrical line voltage, fluctuations or surges; e) Normal wear and tear or otherwise due to the normal aging, other causes beyond GIKER's reasonable control.
