

HEAT TRANSFER VINYL

AUG 2021 NO.3

Your Heat Transfer Material
Solution Provider

About Us

KENTEER, founded in Xiamen, Fujian, in 1996, a 45,000m² production plant was in Jinjiang, Quanzhou city, which consist of 3 workshops, 1 office building and 1 stuff dormitory, beside, the workshop has an independent R&D space consist of laboratory and test data base, guarantee the quality of products.

Production Capacity

KENTEER has 24 year experience of research and development of heat transfer vinyl for screen printing, digital printing, plate making. Now, it has 5 production lines, offering 13,000 rolls to demand heat transfer vinyl handled every month, and give customization service to satisfy specific measurable product of clients.

Service

KENTEER has 8 professional teams, they were trained to give clients products support and technology support before and after sales, also sharing the innovation ideas and assistance of their exhibition shows. all to be the opportunity to cooperate with many international brands like Nike, Disney, Victoria's secret etc.
