Model	HM-002
Power	5V/1A
Voltage	3.7V
Battery	1200mAh
Timer	10 minutes
Product Dimensions	116*98*83mm

Operation Instruction

- 1 Please charge the device prior to first use. The indicator light will keep flashing while the battery is running low.
- 2 Long press  to turn on/off the device, or click to switch among 3 different modes (low speed, high speed, low/high speed interchanging). The indicator light will flash when the mode is switched.
- 3 While the device is on, long press  to turn on/off the heating function (the indicator light will turn red if the heating function is on), click to turn on/off vibrating, or double click to turn on/off red light.
- 4 Please use a 5V/1A charger (not included) to charge this device.
- 5 Please keep the device dry before charging, otherwise it may cause malfunction.
- 6 Please keep the massage claws in a folded state for a proper charge, to avoid charging failure.
- 7 It will take about 2 hours to fully charge the device and each full charge could sustain about 1 hour of use. Deviations might occur depending on different factors (such as temperature and massage speed).
- 8 When the battery is running low, the indicator light will flash 3 times, then the device will enter sleep mode; During the charge, the self-protection function will be activated and the product will stop working, with the indicator light in breathing mode. The indicator light will remain steadily on after the product is fully charged.
