Warning

1. Unpack and remove the product from the box, check the accessories list.
(User manual×1, hand-held bottle cleaning brush body×1, charging cable×1, bottle brush head × 1, nipple brush head × 1).
2. For the first use, put two brush heads in boiling water and cook for 3 minutes to remove the odor generated during production and transportation.

Cleaning & Maintenance

1. Do not use alcohol, steel balls, abrasive cleaners, or corrosive liquids to clean the product, otherwise it may damage the product or cause parts to crack or discolor.
2. Please turn off the power supply when cleaning. It is recommended to clean the main unit and the brush head separately.
3. The brush head can be directly rinsed with clean water, and then placed in boiling water for 2 minutes.
4. The body can be wiped clean with a wet towel.

Use and precautions

1. Tighten the connecting shaft between the brush head and the host until the brush head is fully engaged with the connecting shaft.
2. Do not insert other objects into the connection between the main unit and the brush head.
3. If the indicator light turns red or the torque drops, please charge in time.
4. If any fault is found during use, please stop using immediately.
5. During use, it is normal for the hand-held bottle cleaning brush main unit to generate slight heat.
6. Do not disassemble, repair or modify this product by yourself.
7. When using the product, please do not put the brush head close to the human hair to avoid the danger of tangling with the hair when the brush head is running.
8. Do not expose the product to humidity, high temperature, or prolonged exposure to sunlight.
9. This product should not be used by persons with physical, sensory or mental disabilities, or those with inexperience and knowledge (including children). A guardian must supervise and guide the use of this product.
10. Do not use the main unit and brush head of this product as children's toys.
