MUBVIEW®

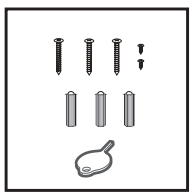
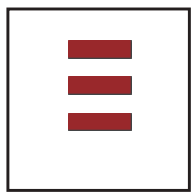
1.What's in the Box





Doorbell * 1

DingDong *1

Quick User Guide *1

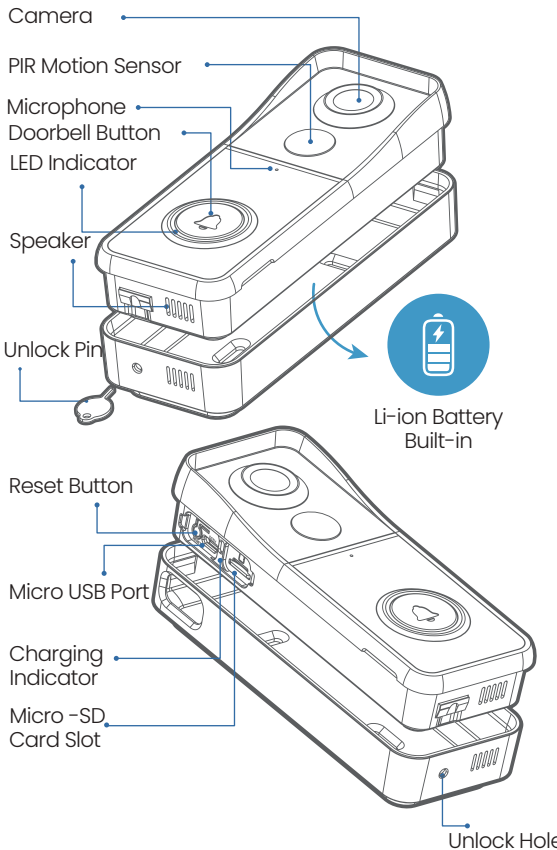
USB Cable *1

Screws Set/Screwdriver *1

3M Tape *2

NOTE: Micro SD card and power adapter are not included.

2. Meet the Doorbell



•Doorbell comes with a 4,800mAH rechargeable battery.

3. Download and Install App

Download Mubview App from Google Play™ or App Store™. Or scan the QR codes as below, with your smart phone.

*Google Play™ is a trademark of Google Inc. App Store™ is a mark of Apple Inc.

iOS Android

NOTE: Make sure turning on both permissions below.
① Allow Mubview App to access mobile cellular data and wireless LAN, otherwise it will fail to connect the camera (in mobile Setting).
② Allow Mubview App to send messages, otherwise the phone will not receive alarms when motion is detected (in mobile Setting-Mubview).

4. Account Registration

New user needs to sign up in Mubview App with email address. Click 'Sign up' to create a New Account and follow the steps to complete registration.

5. Add Doorbell to App

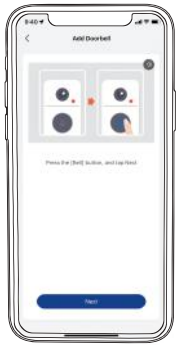
5.1 Preparations for connection

① Insert Micro SD Card into the camera to save video clips or you can start the 3-day free cloud service. Without Micro SD Card or cloud service, no video will be saved.
② The camera only support 2.4GHz Wi-Fi, not support 5GHz.
③ When connect to the network, please take the camera close to the router(suggest within 10-15ft).

5.2 Connect Doorbell to App

Tap 'Add Device' | Select 'Doorbell Camera' | Power on the Camera

Reset the Camera



Activate the doorbell

Prepare to Scan

Scan QR Code

Wait till 100%

Perform Network Diagnosis

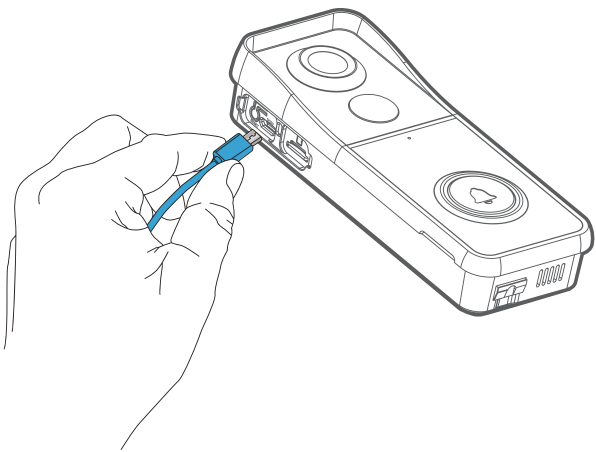
6. Charge your Doorbell

Prior to the doorbell installation, please charge up your doorbell for about 8-10 hours till the charging LED turns BLUE from RED.

LED STATUS	INDICATION
Solid red	Battery charging
Solid blue	Fully charged

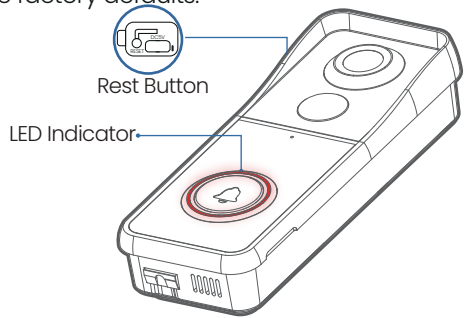
Compatible charger (not provided):

USB compatible mobile phone charger (DC 5V⎓1A~2A).



7. Set up Doorbell

1 Press your doorbell to activate, and you will see the LED indicator flashes red (once per second). If not press and hold reset button for 5 seconds to restore factory defaults.



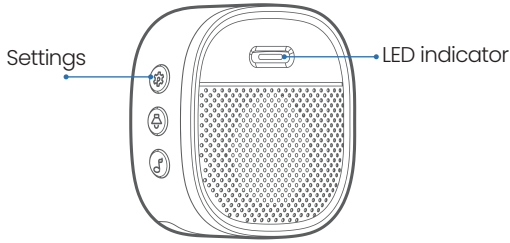
2 Tips

· Please operate the setup near your Wi-Fi router.
· Make sure your phone connect to a 2.4GHz Wi-Fi.
· Make sure the doorbell is turned on and its indicator LED is flashing red. If not, press and hold RESET for 5 seconds.
· Ensure the Wi-Fi signal is good, and the Wi-Fi password is correct.

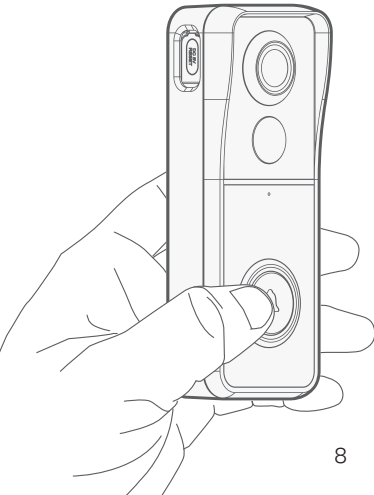
LED STATUS	INDICATION
Solid red	Device is abnormal
Flash red (once/sec)	Ready for Wi-Fi configuration
Flash red (twice/sec)	Connecting to Wi-Fi
Solid blue	Device is online
Flash blue (once/sec)	LiVe-viewing doorbell cam
Flash blue (twice/sec)	Firmware upgrading

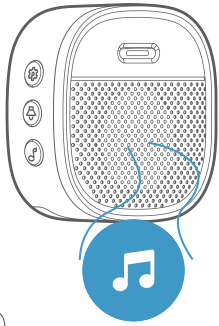
8. Pair With Your Indoor Chime

1 Click the SETTING button on the chime, and the chime will be in pairing mode for 20 seconds, with its red LED flashing.



2 Press the doorbell button to send a pairing signal, and your chime will sound to react, together with its blue LED flashing. Chime pairing succeeds.





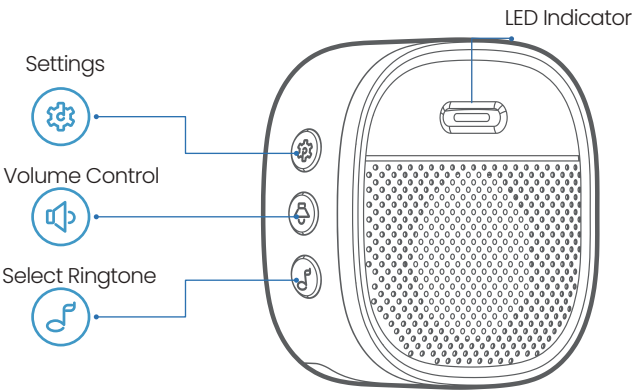
Chime rings & indicator flashes blue

3 Chime settings.

Settings.
Click to enter/quit pairing mode;
Press & hold for 5 seconds to restore factory defaults.

Volume control button.
Click to control volume:
level 1: 110 dB; level 2: 100 dB
level 3: 90 dB; level 4: 80 dB

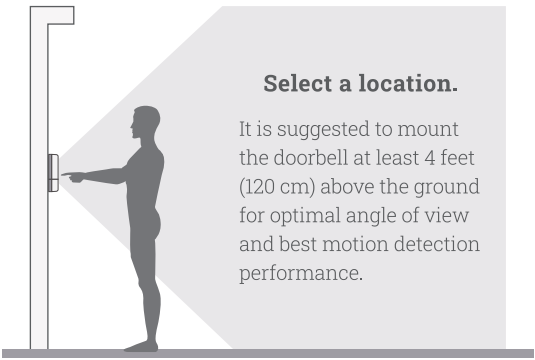
Ringtone selection.
Click to change ringtone (4 ringtones available).



MUBVIEW®

9. Install Your Doorbell

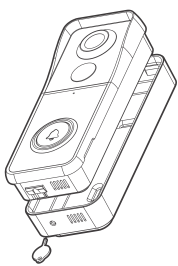
1 Select location for your doorbell.



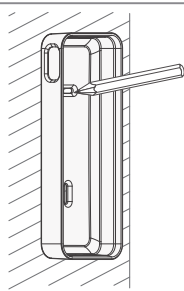
Select a location.

It is suggested to mount the doorbell at least 4 feet (120 cm) above the ground for optimal angle of view and best motion detection performance.

2 Mount your doorbell.

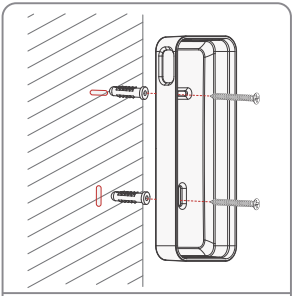


A Release the rear mount using the unlock pin.

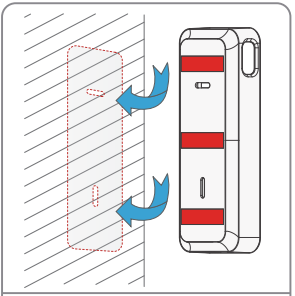


B Mark the screw holes with the doorbell mount.

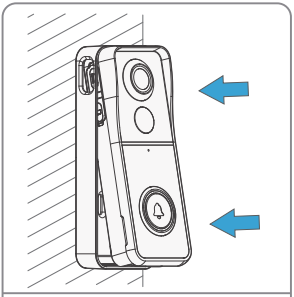
3 Standard installation.



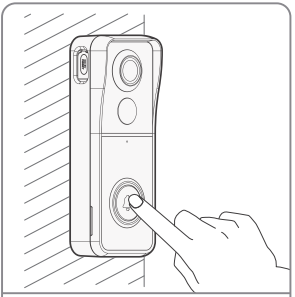
C Mount the rear mount to your wall with screws and tools.



D Adhesive tapes are optional to mount the doorbell on flat surfaces.



E Attach the doorbell to its rear mount, and push the doorbell to lock up.



F Press the doorbell down again. All set!
