Adjustable Neck Brace

VP0207  
Regular Version

VP0208  
Inflatable Version

**[Product Name] :** Adjustable Neck Brace  
**[Product Code] :**  
(Regular Version) □VP0207 (Inflatable Version) □VP0208

**[Product Comounds] :**  
Modal fibre, Spandex, Artificial Cotton, Mercerized Cotton, Polyurethane, Nylon, TPU, ABS+PC, POM.

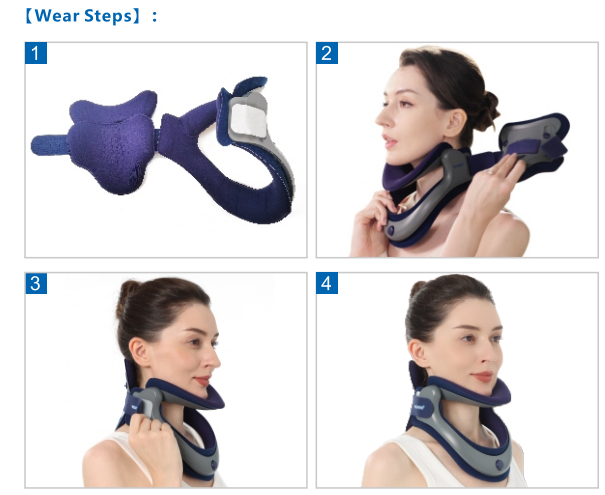

**[Product Features] :**

- Minimalist style, hollow open design, all-around ventilation for a sweat-free experience.
- Five adjustable height settings for the lower jaw support, conforming to the natural curve of the neck, effectively supporting the head and neck, and relieving pressure on the cervical spine.
- Three adjustable height settings for the rear neck panel support, making the product suitable for different neck heights.
- Regular Version:**  
Super lightweight, the product weighs only 0.44lb, approximately equivalent to the weight of 4 eggs, allowing for extended wear without burdening the neck and shoulders, and without hindering daily activities.
- Inflatable Version:**  
1. Super lightweight, the product weighs only 0.66lb, approximately equivalent to the weight of 6 eggs, allowing for extended wear without burdening the neck and shoulders, and without hindering daily activities.  
2. Inflating and deflating is easy and convenient. After wearing, you can adjust the inflation to achieve a more comfortable and stable fit.  
3. Made from aerospace-grade engineering plastic material with high-quality hook and loop for secure and reliable fastening, ensuring it stays in place during extended wear.
- The neck support cushion is made of Modal fabric and high-density sponge, produced using ultrasonic seamless manufacturing technology, providing softness, elasticity, and moisture-wicking properties.
- The product does not contain chloroprene rubber or latex components, making it non-irritating to the skin.
- Easy to wear, suitable for both men and women, as well as teenagers and the elderly.
