What is Recirculation Mode?

The air is drawn in and cleaned first by the grease filter and then by a charcoal filter to remove any moisture and smells before the air is reintroduced into your kitchen. Ensure a normal and comfortable room climate (humidity of 45–60%), e.g. by opening natural ventilation openings or using domestic ventilation systems.

Lyon RF90I4FHOOD

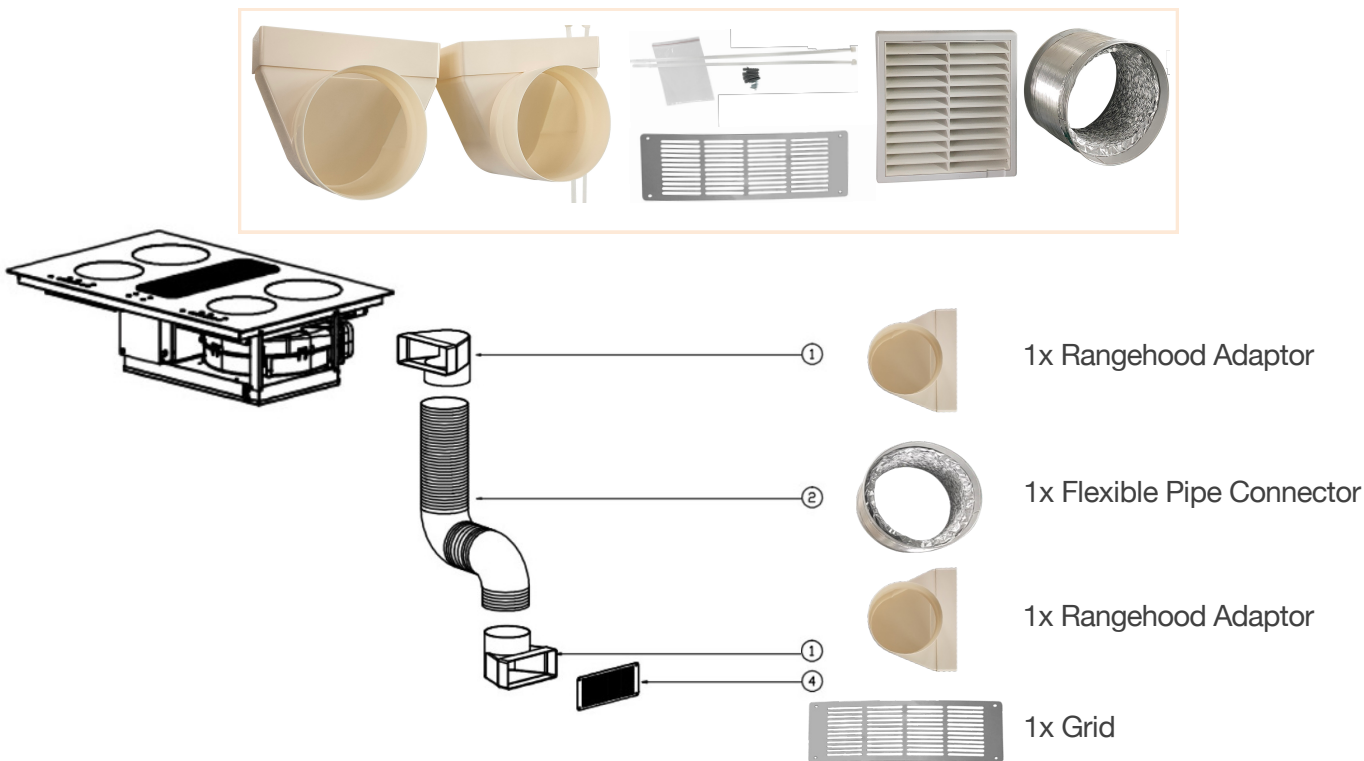

Lyon RF90I4FHOOD can be installed in a Recirculation Mode or in an Extraction Mode.

In Recirculation Mode, it is **highly recommended** that you install the recirculation kit for optimal performance of the Lyon RF90I4FHOOD in your kitchen.
