## ASSEMBLY INSTRUCTION

Model:PHO\_OPDV

## Tips!

1. Check all the components & screws are intact before assembling the table.
  2. If you notice any pieces are missing or damaged please do not assemble and contact us immediately.
  3. Send an email with your question/issue, and we will respond within 24 hours.
- Customer service team: [Idealhouse\\_service@hotmail.com](mailto:Idealhouse_service@hotmail.com)

The maximum load capacity for the wood table is 200lbs (90.7kg).  
Exceeding this capacity may result in table collapse and possible injury.

## IMPORTANT SAFETY INFORMATION

Please carefully read the instructions and caution warnings below before assembling the table. Following this guide will ensure that you install, use and maintain the product properly.

- Please keep this installation and user manual/instructions for future reference in case you need to assemble the product.
- Never allow children to climb onto the product. Ensure that you have special safety measures when children are around on their own.
- Be sure to check that all parts of the product are intact after you open the package.
- Do not assemble if you notice serious damage such as cracks or bends.
- During installation, please use work gloves for hand safety.
- Please assemble the unit on carpeted floor or the flat cardboard box to avoid scratching the surface or your floor while assembling on the floor.
- To assemble, please use the complimentary installation tools (Allen Wrench). Pay more attention to the direction of components at each steps.
- It is recommended that two people work together to assemble the table.

## RETURN POLICY

We believe you will absolutely love your new table. But for some reason you want to return your item, please contact us within 30 days after receiving and ensure that the table which you want to return is in a good condition in the original box with all original certificates of purchase, manuals and accessories attached.

## HOW TO MAINTAIN YOUR TABLE:

- Check the screws of the table are not loose from regular use.
- Do not use sharp instruments, rubbing alcohol, corrosive chemicals, or abrasive cleaners to clean the table.
- Do not keep the table in a damp environment for a long period of time. The damp environment may cause the iron components to rust and the plates to bulge and crack.
