FROTH MILK ALONE

01

Press the "☺" steam button. Please wait the steam indicator stop flashing. Otherwise it comes out with weak steam, which will make bad frothing effect.

02

Prepare a pitcher with about 100ml / 3.4 fl.oz of milk. Insert the steam wand nozzle into the milk about 0.4-0.8inch. Slowly turn on the steam control knob to control the steam volume.

03

Froth milk in the way moving vessel round from up to down, after the milk increase in volume by 2 times or the required purpose is reached, turn the knob back to " OFF " position to stop. Take away the pitcher.

i Note : During the milk frothing, if lack of water, the machine will produce louder noise and small steam, please refill in time.

04

In order to prevent the steam wand nozzle from blocking and make it easier to clean, we suggest you to clean it immediately after frothing milk.

i Note : Be careful the hot surface of steam wand.

05

Turn off the steam control knob.
Clean the steam nozzle with damp cloth/sponge.

MAKE ESPRESSO ALONE

01

Insert the filter into the filter holder. Fill ground coffee into the filter and press it with the tamp spoon. The ground coffee should be pressed evenly and not too firmly.

02

Install the filter holder into the machine from " Unlock " to " Lock " position. Place a cup on the drip tray.

03

Press the single-cup button or double-cup button the espresso indicator will flash, the machine start brewing.

04

The machine will stop automatically when coffee brewing finished.

05

Remove the filter holder from " Lock " to " Unlock " position. Remove the coffee grounds and clean the filter holder by water. Rinse the seal ring with wet cloth.

i Note : Be careful the hot water of machine brewer and hot coffee grounds.
