● **Body:**

1. Clean water tank 2. Cleaning brush 3. Button panel 4. Dirty water tank 5. Host machine
6. Hose 7. Water spray switch button 8. Hand retainer 9. Power switch 10. Bobbin winder base
11. Buckle 12. Lock

● **Accessories:**

Standard brush

WidePath brush

T-shaped brush

Self-clean brush

Instruction

● **PRODUCT PARAMETERS:**

Rated Working Voltage	120V 60Hz	Motor Type	Dry and Wet Dust Suction Motor
Rated Power	1200W	Motor Life	≥300H
Vacuum Degree	13KPa	Hose Length	1.7m
Noise	≤80db	Waterproof Level	IPX4
Clean Water Tank Capacity	1800ml	Net Weight of Machine	4.2kg
Dirty Water Tank Capacity	950ml	Working Environment Temperature	5-50°C
Power Line Length	5m	Machine Size	320*228*327mm
Heating Time	15S	Heater Life Time	≥300H

PREPARATION

- 1** Remove the clean water tank from the body.

- 2** Open it and fill with clean water.

- 3** Install the clean water tank into the body.

- 4** Insert the brush into the handle.

- 5** Fix the hose and power cord before handling.

INSTRUCTIONS

- 1** Plug in it.

- 3** Turn on the power to start.

- 2** Turn on the main switch.

- 4** Select suction power or water temperature.

Notice: Please spray the residual water in the pipe before spraying hot water.

- 5** Press the water spray button to spray clean water.

Spray the stain with clean water to let it surface.
Do not spray continuously at the same spot.
After spraying, absorb the water, so as not to cause mildew and odor.

6 Absorb water.

Stop spraying, and absorb the sewage.
After using the cloth on which water is easily retained, please blow dry or air dry.

8 Turn off the main switch.

*If the machine will not be used for a long time, please turn off the main power behind the machine.

10 Pour away clean water and sewage, and clean the sewage bucket.

7 Turn off the power to stop.

9 Unplug it.

Attention: Turn off the power before unplugging it.
After use, please hang the coiled power cord back to its original place.

● Operating Instructions :

In order to avoid blocking the air duct, please clean up large pieces of garbage in the area, such as large pieces of paper, packaging film, etc. .The cleaning range of this machine is soft planes such as cloth and plush. It is not recommended to use it on hard surface.

1. Press the power switch to start the machine and start working; Press the power switch again to turn off the machine.
2. Power: The default is "Standard" gear, press the "Power" button to adjust to "Turbo" gear. Press again to adjust to "Standard", switch back and forth.
3. Temp: The default is "Warm" mode, press the "Temp" button to adjust to "Hot" mode. Press again to adjust to "Warm" mode, switch back and forth.
4. Sewage tank water full prompt: When the sewage tank is full, All the lights are flashing, the buzzer "drip" voice for three consecutive times to enter the standby mode.
5. Adjust the mode according to the demand, hold the cleaning brush, press and hold the "water spray switch" button on the bottom of the cleaning brush button, the water spray head continues to spray water outward; release the button, the water spray stops.
6. For ordinary stains, pour the cleaning liquid into the cleaning tank and spray water on the stains. After spraying water, the cleaning brush is used to wipe repeatedly, and the stains and sewage are sucked into the sewage box and sucked several times to quickly clean the stains. It is recommended that after cleaning, clean it again with water to prevent the cleaning liquid from remaining in the fabric.
7. For stubborn stains, first use a special cleaning solution to the cloth above the stain place spray, spray after the use of cleaning brush repeatedly, the cleaning solution will completely dissolve the stain, open the machine to clean the liquid and sewage into the sewage tank, repeated suction several times can quickly clean the stain.
8. After cleaning, use the self-cleaning brush head and perform the overall cleaning of the pipe.

● Power Cord and Hose Storage:

- 1.This product has a long power cord, after the product is used, the power cord can be wrapped around the back of the machine Winding seat, convenient storage.
