* The product's appearance or components may differ depending on the model.

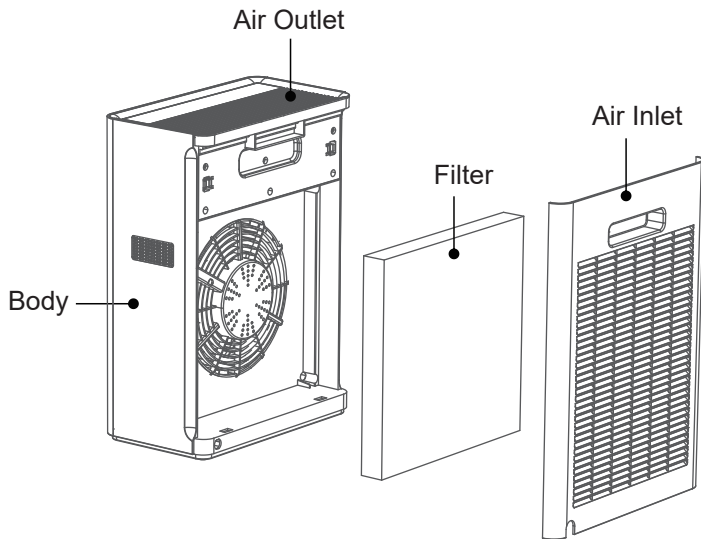

3 BEFORE USING THE APPLIANCE

1. Unpack the appliance, remove packing tape and filter protective bag before using the appliance. Install the filter in the unit. Insert the cover into the fixing grooves and close the cover.
2. Place the air purifier at least 1ft/30cm away from the wall or furniture.
3. Connect the power supply. When the power is turned on, the key light flashes.

Control panel and functionse 4

5 Name of each part

Method of use 6

1. ON/OFF key: After the power is turned on, press  once, the value will be displayed in the middle, and it will operate at 2F level.
2. Manual mode: Press  once to manually adjust the air speed from level 1 to 3.
3. Sleep mode: Press  once to enter the sleep mode.
4. Timer function: Press  once to start sleep timer function. It can be set to shutdown after 2H, 4H, 6H, 8H, 10H, and 12H. The setting time will be displayed in the way of countdown. The button blinks when the filter screen expires. After the filter screen is replaced, hold down the  button for 3 seconds to complete the reset when the light turns off.
5. Auto mode: Press  in any other running mode, and the machine will enter the auto mode. In the auto mode, the AUTO key light is on, and the machine will automatically select the appropriate speed based on the air quality signal detected by the sensor.
6. Child-proof lock function: Press  to start child-proof lock function to lock other keys. Longpress  for 5 seconds to cancel.

7 Maintenance

 **Always unplug the power before any maintenance!**

1. Reference time for daily cleaning and maintenance of filter: about once a month. The surface of the filter can only be cleaned with a brush and dry cotton cloth. It is not allowed to wash the filter with water or detergent. The filter is easy to be damaged and deformed. Do not press and pull hard during cleaning. If it is damaged, replace it with a new filter in time.
2. Reference for replacement interval of filter: Replace it once every 3 to 6 months. It varies according to the place and method of use. The replacement interval of the filter may be shortened in heavily polluted areas, when family members smoke, etc. Please replace the filter in time when the filtering effect is not good.
3. Appearance cleaning: wipe the outer surface and air inlet and outlet with a soft cloth that is wrung dry. Do not clean the surface with chemical cleaner.
4. Shutdown for a long time: Unplug the power plug and clean the outer surface and filter. Put on plastic bags and store in a place with less moisture.

Specifications 8

Product name:	Air purifier:
Product size:	295x165×410mm
Package size:	340x195×445mm
Net weight:	3.75KG
Gross weight:	4.2KG
Product model:	HQZZ-260
Operation mode:	Touch key
Input voltage:	120V AC 60Hz
Rated Power:	52W

9 Matters needing attention

1. It is not allowed to wash or spill the product with liquid.
2. Do not put your hands or foreign matters into the air inlet and outlet since there is a high-speed wind wheel rotating in the purifier
3. Try to place the purifier out of the reach of children. It is not a toy for children to play with.
4. Keep hair, fabric, etc. away from the main unit to prevent them getting involved or blocking the air inlet and outlet.
5. In order to improve the purification effect, try to close the doors and windows when using the product. (Please keep good ventilation when using with combustion device to avoid carbon monoxide poisoning.)
6. Do not use the purifier in the bathroom and other places with high temperature, humidity and water.

Analysis of common problemse 10

Phenomenon	Cause and solutions
Odor	<ul style="list-style-type: none"> ● The filter is too dirty and has not been replaced for a long time- replacethe filter. ● Water has got in the filter or the purifier has been used in humid environment- replace the filter. ● Reuse after storage for some time clean the filter or replace the filter if the problem can not be solved. ● Burning smell-Stop use immediately and disconnect the power and contact the maintenance service.
