

LED Dock Light

DESCRIPTION

ROMANSO LED dock lights provide light into trailers during the loading and unloading process with a high-visibility beam of light attached to an adjustable arm. This lights create a productive, safe and OSHA compliant working environment. Illuminates trailers with bright, long lasting, and energy efficient lighting on a heavy-duty design, made for applications that are susceptible to wear and damage. It delivers lower energy cost with high quality superior light over incandescent, quartz or metal halide technologies traditionally used in loading dock applications.

KEY FEATURE

- Optimum brightness for entire length of trailer.
- Built-in switch to control on-off.
- Adjustable screw on the lamp, adjust lamp's angle by hand.
- Eliminates light bulb replacement and/or clean-up.
- Compact design utilizes aluminum housing for cooling system.
- High-visibility beam angles for optional.
- Cree LED is available.
- Over 50000 hours lifetime and offer 5 years warranty.
- ETL/cETL/CE/RoHS certificates.

DETAILS

CREE

1/ BRANDED LED

Cree LED are available, LM80 report, long lifetime.

20° / 30° / 110°

30° / 80° / 110°

2/ BEAM ANGLES

High-visibility beam angles for optional:
20W /30W : 20°/30°/110°,
50W /60W : 30°/80°/110°.

3/ ALUMINUM HOUSING

Die-cast aluminum housing for maximum heat dissipation.

4/ REAR SWITCH BUTTON

Built-in switch to control on-off condition.

5/ STAINLESS STEEL CAGE

Better protection for light, anti-corrosion and durable.

6/ ELECTRICAL OUTLET

Come with 1ft(300mm) regular waterproof connector; US/EU/AU plug is optional

7/ CORD

Come with 5ft(1.5m) cord.

8/ ADJUSTABLE SCREW

Can be adjusted with different lighting direction.

DISPLAY

5' long 18/3 conductor cord, US/EU/AU plug optional
Customized swing bracket design can be customized according your requirements.
