We understand your precious family is on board, and

Nothing more important than feeling assured and confident.

No more worry about tipping over:
Proprietary Dynamic Dualdrive™ Landing Gear system with suspension and adaptive algorithms, brings unprecedented stability.

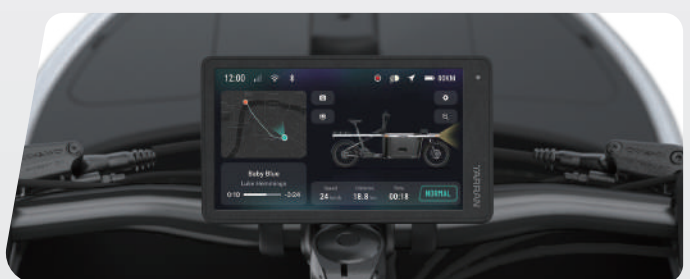

Automatic deploy when braking to a low speed, and retract when riding is stable.

Manually adjust height to switch between riding assistant and kickstand modes.

Offer balance support at low speeds and when pushing to avoid tipping over.

Remain seated and control everything.

Meet your cockpit: **5.2-inch retina touchscreen**, featuring **TARRAN OS™ System** And **TARRAN™App**. Together with handlebar buttons, they give you easy access to all you need for a joyful ride.

Real-time road condition alert \ Smart lighting control \ One-click photo shooting \ Play music, answer a call \ Onboard navigation

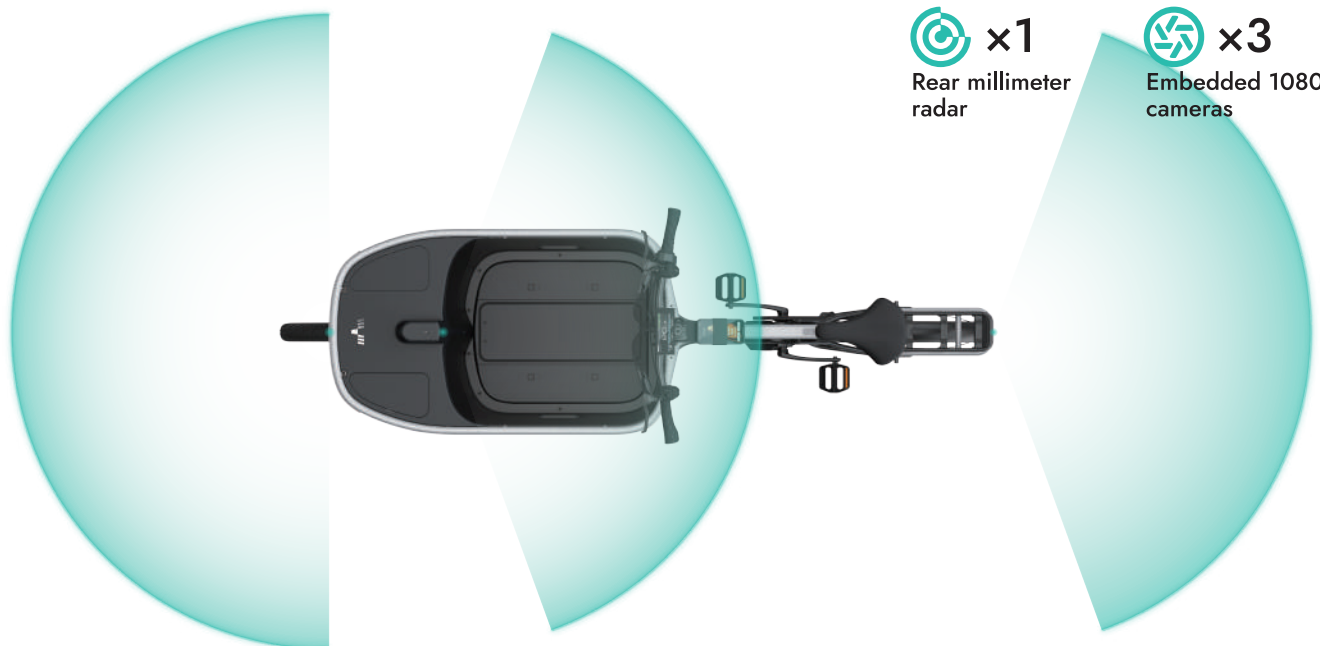

Look further, watch your back.

Now, your safety system thinks for you even before you do.

ActiveGuard Pro™ Detection System

x1
