

A large red rounded rectangle occupies the middle section of the page. It has a solid red top half and a bottom half with a white-to-red gradient and a pattern of small white dots.

# PRODUCT MANUAL

[services@cyeelife.com](mailto:services@cyeelife.com)

**NOTE:**

This is a generic product manual that shows how to use the tools. The dart set you purchased might not contain all the dart accessories mentioned.

## HOW TO INSTALL A DART

Please assemble the components of the dart in the order shown below.  
Check all components are securely installed before use.

### NOTE:

Rubber O-ring is pre-installed on aluminum shaft to tighten the dart, PC shaft doesn't need it.

### STEEL TIP DART

### SOFT TIP DART

## HOW TO INSTALL FLIGHTS PROPERLY

1. Open the PET dart flight, make it shaped like a "cross".
2. Align the cross at the bottom of the flight with the cross groove at the top of the dart shaft, carefully and slowly insert it.
3. If the insertion is not successful, please use the dart tool to make the cross slot on the shaft open a bit wider if necessary (See instruction on the next page).
4. After that, try to insert the flight again follow the step 2.
5. If all flights are broken during the installation, please email us and our team will help you out.

Spread shafts for easy flight insertion

Can be used as a bottle opener and tied to a key chain

sharpen the dart tip
