CEILING FAN CATALOG

THE ART OF ROTATION

LEA is not only a product, but also a philosophy of life. We are committed to creating such a space where people coexist harmoniously with nature and machinery.

We pursue a harmonious balance between humans and nature, integrating mechanical intelligence into it. Our original intention is people-oriented and nature-respected.

Driven by modern technology, we strive to find a resonance point between human life, nature, and machinery.

LEA | LEADER ELECTRIC APPLIANCES

Professional Manufacturer and Exporter of Ceiling Fans

Our "quality first" attitude is combined with extensive research and development and professional production/assembly to provide high-quality ceiling fans to customers in the United States, Canada, Australia, Europe, Japan, South Asia, the Middle East, Africa, Taiwan, and other places. Our current annual production is 800000 units. After the renovation and expansion of the factory building, with nearly 20 years of industry experience and state-of-the-art production facilities, our company is expected to produce 1.2 (1.5) million fans annually in the future.
