BEFORE YOU GET STARTED, A FEW POINTERS

Having a friend to help can make the assembly process even easier

Read the safety information before use

Welcome to share any pictures or videos about this gaming chair!

1 Cut off the tape on the backrest heat seal bag gently, and slide the backrest and the seat base out of the box.

2 Remove the 4 screws pre-installed in the backrest using the hex side of the screwdriver or Allen key.

3 Slide the backrest on the right down onto the right bracket to align with the screw holes on the right of the backrest. Insert the M8 screws previously removed from the backrest. Screw them in halfway.

4 Push the left recline bracket up to align with the screw holes on the left of the backrest. Insert the M8 screws, then tighten all 4 fully on both sides of the backrest using the long Allen key.

5 Remove the recline strap. Next, use the Phillips screwdriver to remove the black screw marked out by the red safety tab on the right recline cover red safety tab.

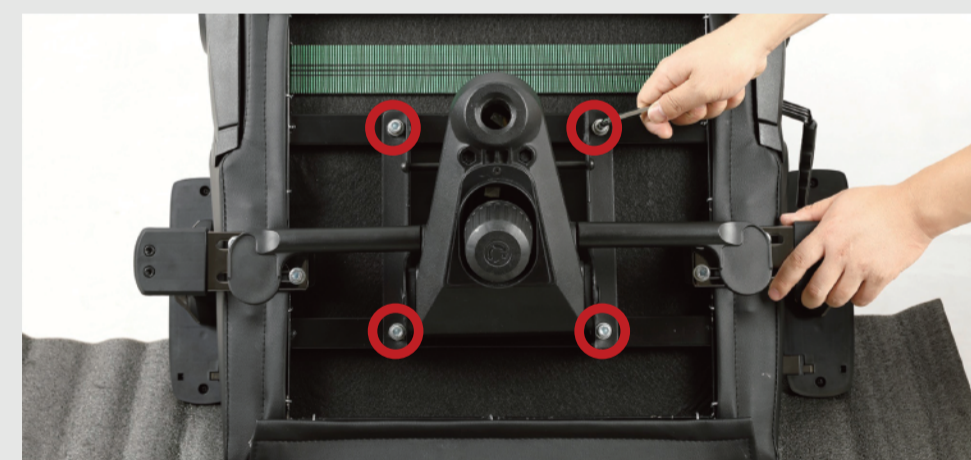

6 Install the side covers by aligning them with the screw holes, then tighten all 2 fully on both sides of the backrest using the small Allen key.

7 Lift the chair and gently set it facing downwards.

8 Ensure the tilt mechanism is facing the correct direction by referring to the indicator arrow under the seatbase. Attach the tilt mechanism to the bottom of the seat base using the 4 screws pre-installed, then tighten all 4 fully.

9 Lay out the foam sheets found in the packaging on a flat surface. Place the five-star base upside down on top of the foam and insert all 5 casters.

10 Turn the five-star base on the right side up and insert the hydraulic piston. Slide the hydraulic sleeve over the piston.

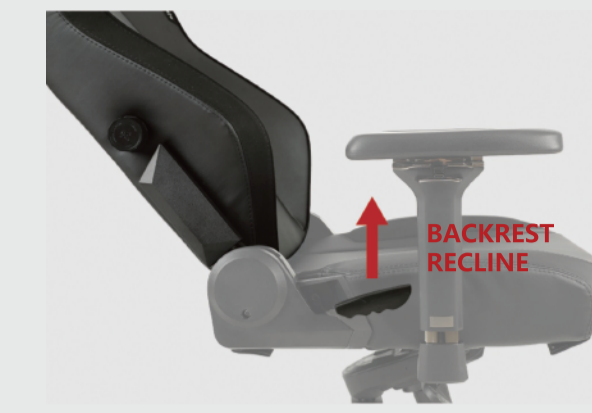

11 Lift the assembled five-star base and insert the hydraulic piston into the socket of the tilt mechanism.

12 Carefully tilt the chair into an upright position while holding the five-star base.

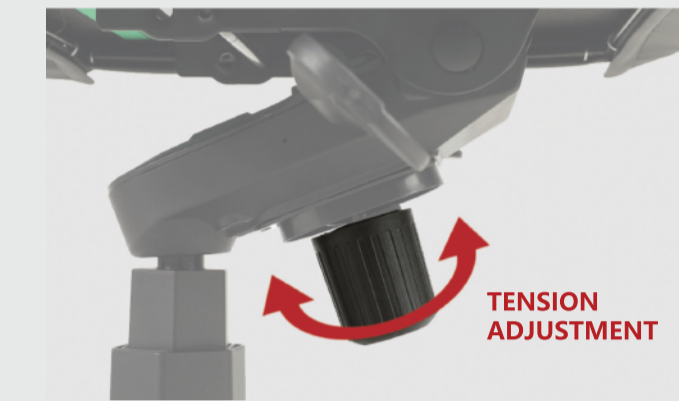

USAGE INFORMATION

BACKREST RECLINE

Pull up FULLY on the lever and lean back slowly until the backrest is at your desired angle, then slowly return the lever to its starting position. Ensure the lever locks back in place.

TILT TENSION

Turn the knob clockwise to loosen the rocking tension of the chair anti-clockwise to tighten. Adjust according to your weight.

LUMBAR ADJUSTMENT

Right knob (while seated): Turn the knob clockwise to increase the lumbar support, anti-clockwise to decrease it. Left knob (while seated): Turn the knob clockwise to raise the position of the lumbar support, anti-clockwise to lower it.

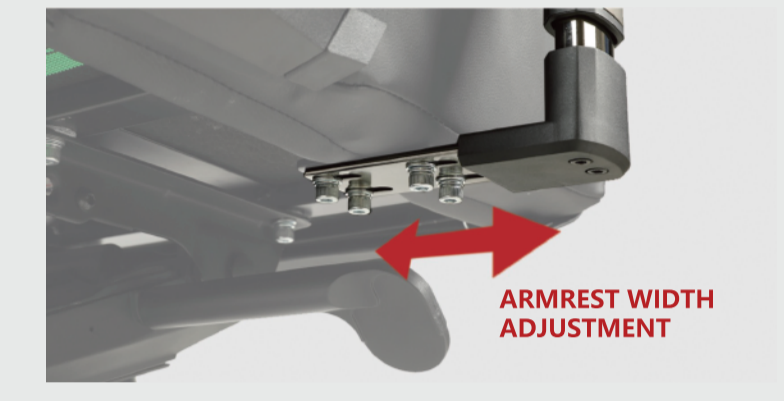

MULTI-TILT MECHANISM

Right lever (while seated): Push the right lever down to adjust the height of the chair. Left lever (while seated): Push down to lock the tilt mechanism and the seat base at your desired angle. Pull up to unlock.

4D ARMRESTS

Press and hold the 1) front button to move them forward back or angled sideways, 2) inner side button to move them sideways, and 3) lever on the outside of the armrests to adjust the height.

ARMREST ADJUSTMENT

The distance between armrests can be adjusted. Loosen the M8 screws at the bottom of the armrests. Move the armrests to the desired position, then tighten them to secure.

LUMBAR USAGE

Do not put weight on the backrest while adjusting the lumbar support. Do not attempt to turn either knob past its maximum or minimum points. Do not attempt to turn both knobs at the same time.
