

Y16 RGB Moving Head Beam Laser Bar

Model	Description	Configuration
Y16-W12000	12W RGB Moving head beam laser bar	W2000C (R635-500mW/G525-400mW/B450-1.2W)x6pcs
Y16-W3000	3W RGB Moving head beam laser bar	W500C (R635-200mW/G525-100mW/B450-200mW)x6pcs

- 1. The 6 heads laser once popular all over the world have been upgraded again. Instead of the Y-axis linkage mode, each head can swing independently, so that the laser lines can add a variety of Angle changes, so that the lighting artists can construct a richer picture.**
- 2. New X-axis Infinite rotation, plus 6 independent Y-axis control, rich and varied colors, sharp laser beam, not only a good helper of space collocation, but also agile, dynamic, soft and rigid.**

©Y16-W12000 Configuration: W2000C(R635-500mW/G525-400mW/B450-1.2W)x6pcs

©Y16-W3000 Configuration: W500C(R635-200mW/G525-100mW/B450-200mW)x6pcs

©Rated voltage: AC100~240V 50/60Hz; 160W@AC220V

©Laser:W2000mW RGB or W500mW RGB

©Control mode:Sound/ automatic/master-slave/DMX512(18CH/48CH)

©Control interface:3 pin DMX512 (IN/OUT)

© Effect: 16 kinds of Auto dynamic effect, built-in rich color macro function control

©X axis: infinite rotation

©Y axis: 0-200 ° rotation

© Scanning system: precision stepping motor

© Working environment: indoor

©Operating requirement: dry, less dust, 0~35°C(environmental temperature),will reduce

the attenuation of the diode and extend the life of the light.

©Application:disco, club, concert, medium indoor venue, festival

©Carton size: 84*29*37cm(1 in 1)

©N.W./G.W.: 11kg/14kg
