**FACE FRAMES AND DOOR FINISHES**

Our modern Metro cabinetry has the European look with traditional craftsmanship. The streamlined doors will come on a semi-custom built box with a face frame in one of two complimentary colors.

- **White Face Frame**
- **Gray Face Frame**

**FINISHED ENDS OPTIONS**

1. **Cabinet box sides** are manufactured to color match the cabinet’s face frame.

2. **Cover Panels** are 3/4” thick and will match the doors/drawers. Cover Panels are 1” wider and are designed to align flush with the front of the door/drawer and create the look of an inset doorstyle. They are available for base, wall, and tall cabinets and can be found on pages 31-32. Cover Panels must be ordered separately for field modification and installation.

- Available on standard cabinet types in 1" depth increments

* Base cabinets with drawers that are customized from 15" to 23" deep will include working drawers. 9" to 14" deep cabinets will have no drawer and a false drawer front.

* Design and Order Tip: If a cabinet needs to be a custom depth, the depth modification needs to be done before the cabinet order is placed. This modification can be done in 2020 design or in the shopping cart on the website.

The use of full height base cabinets and drawer stacks will help the kitchen to achieve the true metropolitan look. Use the full height cabinets as sink bases, cooktop bases and more!

Using cover panels on the sides, top and bottom of the wall cabinet and waterfall countertops on the base cabinets will create an inset door look in your new kitchen. Using horizontal hardware placement completes the look!

Give the kitchen a true metropolitan look by combining full height doors and drawer bases, verses standard drawer and door cabinets. Also simply installing the hardware horizontally on all cabinets can complete the look!

When using the 27” Deep corner cabinets, make sure to place a 3/4” filler next to adjacent cabinet if the adjacent cabinet is shallower. Also make sure to remember the Cover Panel for the deeper cabinet.

Staggering Upper Cabinets

When designing with panels verses skins in the kitchen, you must allow for an extra 3/4” space for each panel. The panels will give the sides of the cabinets the same look/color as the cabinet doors and drawers. When using the panels in the upper run of cabinetry around a microwave or sink, you will also need to balance out the bottom with either panels or fillers so everything stays centered.

Designing with panels verses skins

Make sure to allow proper clearance on each side so doors can open 90 degrees or more. This will allow the interior accessory to pull down correctly.

Using the Wall Cabinet with accessories

When placing cabinets against a side wall, use a minimum of 3/4” filler between wall and cabinet to allow doors to open.

Placing wall cabinets next to a return wall

Make sure to leave enough space between refrigerator and wall so doors will open on refrigerator at least 90 degrees.

Base Cabinets Design Tips

**Using a Sink Front Angle**

For sufficient dishwasher door clearance and loading/unloading space, a 15" wide base cabinet is recommended for use between a corner sink base and dishwasher.

**Clearance for Roll Out Trays**

Be sure to leave enough clearance for doors to open at least 90 degrees. This will allow the roll out trays to be operated correctly.

**Blind Cabinets with Drawers**

When placing a blind base cabinet, cabinet with drawer or trash pull out, make sure to allow enough clearance so drawer/pull out will open fully.

Make sure to leave enough space to allow drawer to open if placing around corner from range or appliance.

COVER PANEL DESIGN TIPS

In our Metropolitan Series the sides of the cabinets will be finished to the color of the face frame and will not have a Hi-Gloss Finish.

To achieve a Hi-Gloss Finish you will need to apply cover panels to the sides of exposed cabinets.

The cover panels are deeper than the box and door of the cabinet to create an inset look to the door.

- The height of the panel will be the box height or may have to be modified on the job site to match the height of the box.
- Please also keep in mind that the panels are ¾” thick, so plan for them when you are designing as adding them after the fact could be a problem.

This picture shows the cabinets if no panels are used. The sides will be matte finished to match the face frame not the doors of the cabinet. The doors and drawer fronts set on the face-frame and will not have an inset look.
Cover Panels

This picture shows the cabinets with the cover panels applied as well as top and bottom molding to give the cabinet doors an inset look. For the top and bottom, filler pieces (FS96) were used and pulled out to just beyond the cabinet door, so about 1 Inch.

When using panels, a good rule to remember is that whatever you do to the upper cabinets you must also account for on the bottom run.

As an example, please notice around the upper bridge cabinet, there are panels on each side. To keep the run symmetrical and in line, panels were also used on each side of the full height door cabinet below.

Another way to create this look is to use waterfall countertops on the end of the cabinet run and on the island. Panels can be used on the uppers and countertop on the lowers.

Limited Lifetime Warranty

Ideal Cabinetry® (warrantor) warrants to the original consumer purchaser, that all products manufactured or supplied by warrantor will be free from defects in material and workmanship. This warranty is for your lifetime as long as you own the cabinetry, on product used for Residential Purposes only and is not transferable to subsequent owners. Proof of Purchase is required.

This warranty does not cover damage resulting from normal wear, accident, misuse or lack of reasonable and necessary maintenance and service; nor does it warranty the improper installation or unauthorized repair, alteration, or modification or defects in the product when the product is installed. This warranty is limited to the repair or replacement of the defective part at the sole discretion of warrantor. Warranty is limited to Home Decorators Collection Metropolitan Series branded products excluding all electrical components: Excluded items may carry separate warranties as provided directly by the of these products.

It is our option to provide repair parts or replace with functionally equivalent product. Return of product may be required for replacements. Such repair parts or replacement shall be at warrantor’s expense, but customer shall bear all other expenses, including, but not limited to, cost of removal, transportation, re-installation, communication and any special service required by customer such as, overtime labor, etc.

Natural woods and finishes vary in color, grain pattern and exhibit color changes over time. Cabinets may darken or lighten with age due to exposure to certain environmental conditions including but not limited to sunlight, moisture, household cleaners, smoke, etc. Painted cabinets may show cracking at seams. These variations are considered the natural characteristics of the material and finishes and are not covered under this warranty.

In the event of a warranted product performance issue, submit request including proof of purchase documentation, specific description of warranty issue (include photos) in writing to:

Warranty Department
210 Century Boulevard
Bartow, FL 33830

Due to nature of materials and finishes Ideal Cabinetry cannot guarantee warranty replacement will be an exact match.

Ideal Cabinetry reserves the right to alter design, specifications and material without obligation to make changes to product previously manufactured.

EXCEPT TO THE EXTENT PROVIDED BY APPLICABLE LAW, ALL IMPLIED WARRANTIES, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED IN DURATION TO THE SHORTER OF THE PERIOD PROVIDED BY LAW OR THE PERIOD OF THIS WARRANTY, AND UNDER NO CIRCUMSTANCE SHALL HOME DECORATORS COLLECTION BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES SUSTAINED IN CONNECTION WITH THE PRODUCT.
