How It Works
Headphone Controls

LED Indicator

Power/Volume + Button

Volume - Button

Magnetic Charging Port

Multifunction Button
ON/OFF

Turn on the headphones:
Press and hold the Power/Volume + Button until the LED Indicator flashes blue.
*Audrey will say: “Welcome to Shokz”

Turn off the headphones:
Press and hold the Power/Volume + Button until the LED Indicator flashes red.
*Audrey will say: “Power off”.
1. Start with OpenRun turned off.
2. Press and hold the Volume + Button until the LED Indicator flashes red and blue alternately.

3. Open your device's Bluetooth settings and select "OpenRun by Shokz." Audrey will say "connected."
How to Wear

Pick up the headphones, bring them behind the back of the base of your neck, position the earhooks on your ears, then enjoy your music!

*Wearing your headphones the wrong way could cause discomfort. The transducers should rest in front of your ears.
**Volume**

🎵 Operate volume controls while audio is playing.

**Power/Volume + Button**

**Volume - Button**

**How to change volume:**
While your audio is playing, adjust headphone volume by pushing either the Volume + or Volume – buttons.

*A “beep” will sound when the volume is at its max.*

⚠️ *Listening with headphones at high volume may affect your hearing and the audio will be distorted.*
Multifunction Button

- **Play/pause music**
  - Click once

- **Next song**
  - Double-click while music is playing

- **Previous song**
  - Triple-click while music is playing

- **Answer call**
  - Click once

- **End call**
  - Click once

Check Battery Status

Operate controls while audio is not playing

How to check battery status:
Click the Volume + or Volume - button while music is paused, Audrey will tell you the battery status:

* "Battery high/Battery medium/Battery low/Charge me"
Extra Features
EQ Modes

**Standard Mode**: Balanced frequency for listening to music

**Vocal Booster Mode**: Enhanced intermediate frequencies for audiobooks, podcasts, etc.
Switching EQ Modes

Operate controls while music is playing

How to switch EQ mode:
Press and hold both buttons (Power/Volume + Button and Volume - Button) while music is playing until you hear a beep.

*Audrey will say: “EQ changed”
Multipoint Pairing

Pair Two Devices
Switch between two devices seamlessly with multipoint pairing
Multipoint Pairing

1. Start with your headphones powered off.
2. Press and hold Volume + until Audrey will say “pairing” and the LED indicator flashes red and blue alternately.
3. Press and hold the multifunction button and Volume + button until Audrey says, "multipoint enabled."
First Device

Audrey will say "connected".

4. Open first device's Bluetooth® menu and select "OpenRun by Shokz." Audrey will say, "connected".
5. Turn your headphones off.
6. Re-enter pairing mode by pressing and holding Volume + until Audrey says “pairing” and the LED indicator flashes red and blue alternately.

7. Open second device’s Bluetooth® menu and select "OpenRun by Shokz." Audrey will say, "connected."

8. Turn your headphones off.
9. Turn your headphones on. Your headphones are now connected to both devices.

You will hear a beep, then Audrey will say “Welcome to Shokz, connected. Second device connected.”
Turn Multipoint Pairing Off

Operate controls with headphones powered off.

1. Start with your headphones powered off.
2. Press and hold Volume + until Audrey will say “pairing” and the LED indicator flashes red and blue alternately.
3. Press and hold the multifunction button and Volume - button until Audrey will say, "Multipoint disabled."
Restore Factory Settings

Operate controls with headphones powered off.

1. Start with your headphones powered off.
2. Press and hold Volume + until Audrey will say “pairing” and the LED indicator flashes red and blue alternately.
3. Press and hold the multifunction button, Volume – button and Volume + button until hear two beeps and feel the vibration.

4. Turn your headphones off. OpenRun is now reset and can be re-paired to your device.
Changing Languages

Your headphones have four built-in languages: Chinese, English, Japanese and Korean.

Follow the instruction when headphones powered off

1. Start with your headphones powered off.
2. Press and hold Volume + until Audrey will say “pairing” and the LED indicator flashes red and blue alternately.
3. Double-press the multifunction button. Languages have been switched when you hear the corresponding language.
Care and Maintenance
When the headphones are at low battery, there will be a “charge me” prompt and the red light will flash intermittently. Use the corresponding magnetic charging cable for charging.

The LED indicator will turn red during the charging process and the headphones will automatically turn off. The LED indicator will turn from red to blue when charging is complete.
Moisture Detection Alert

How it Works:
These headphones can detect liquid such as water, sweat, or rain. If the headphones are plugged into the charger while wet, the LED indicator will flash red and blue. The headphones will then beep. If this happens, remove the charging cable, dry them completely, then proceed with charging.
Storage and Maintenance

· Store the headphones in a cool, dry place. The working temperature should be 0~45°C (32~113°F). Working in a cold/hot temperature, highly humid area, or low air pressure environment may reduce the battery life.
· Keep the product away from heat sources, direct sunlight, combustible gas or other liquids.
· Keeping the charging port dry before connecting to the charger will reduce the risk of damage.
· The headphones can be used for daily cleaning, but it cannot be rinsed and soaked against the microphone hole, otherwise it may affect the performance of the microphone.
· Clean the headphones with a soft dry cloth.
· Do not charge right after exercising, in case there's sweat inside the charging port, which could lead to circuit burning while charging.
· After storage for a long period, please charge the headphones before using again.

Note
Design and specification are subject to change without notice. For the most up-to-date product information, please visit https://shokz.com.

Warning
To avoid the risk of explosion, fire, or leakage from toxic chemicals, please do not disassemble the product or replace, deform, or mutilate the battery.
Warranty

Your headphones are covered by a warranty. Visit our website at https://shokz.com/pages/warranty-landing for details of the limited warranty.

*Failure to register will not affect your limited warranty rights.

FCC Caution
Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Statement
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: - Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
This equipment complies with FCC/IC radiation exposure limits set forth for an uncontrolled environment and meets the FCC radio frequency (RF) Exposure Guidelines and RSS-102 of the IC radio frequency (RF) Exposure rules. This equipment has very low levels of RF energy that is deemed to comply without testing of specific absorption rate (SAR).
