

# NOBEL PRO SERIES 1000W

Available for:  
240V | 277-347V

The Nobel Pro 1000W Fixture Kit is the fixture of choice for commercial installations. The small footprint also makes it the best fit for greenhouse use. The fixture comprises of a ballast, reflector, and lamp in one complete package. The high frequency ballast was specifically designed for the double ended HPS lamp, resulting in an accurate, optimal output, a stable burning lamp and a better light maintenance over time.

## Technical specifications

Product Size	236*231*568mm
Supply Voltage	240VAC.50/60Hz,277-347VAC.50/60Hz
Supply Current	6.5A/5.6A
Power Factor	≥0.97
Rated Power	1000W
TA&TC	40°C/104°F,80°C/176°F

## Features/Benefits:

- This commercial fixture kit consists of a lamp, ballast, and fixture.
- The Voltage of ballast is optional,240V/277-347V, and meets the standard of different application situations.
- The Light output boosts the growth of the leaves of a plant.
- 3 years warranty effectively guarantee our product quality and improve the after-sales experience.
- With SA, FC listed, and US patent pending.

"The double ended lamp  
is the most efficient lamp  
we ever used"
