2 SELF-WATERING SYSTEM

Modular self-watering system
You can expand to match your design.

7-15 days

Fills one tray, and the whole oasis is fully filled

Low maintenance
Add water once a week

SUCCESS FACTORS FOR PERFECT GROWTH & STRONG SALES

1. VARIETY OF PLANT UNIT

Variety and easy to repot

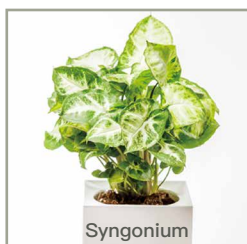

Watering LeGrow garden is super easy. Simply pour water into the self-watering tray, it will distribute it to all the plants evenly. Therefore, you don't need to water the plants one by one and you won't water too much at once. You can save both time and water with a LeGrow indoor garden.

Wolf tail fern

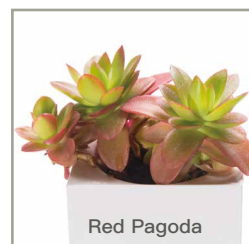

Bird's nest fern

Syngonium

Oxalis

Red Pagoda

Fasciated haworthia

Sarracenia purpurea

Pteris cretica

Mint

Sweet basil

Echeveria
Chihuahuaensis

Echeveria

2. LIGHT

LED grow light

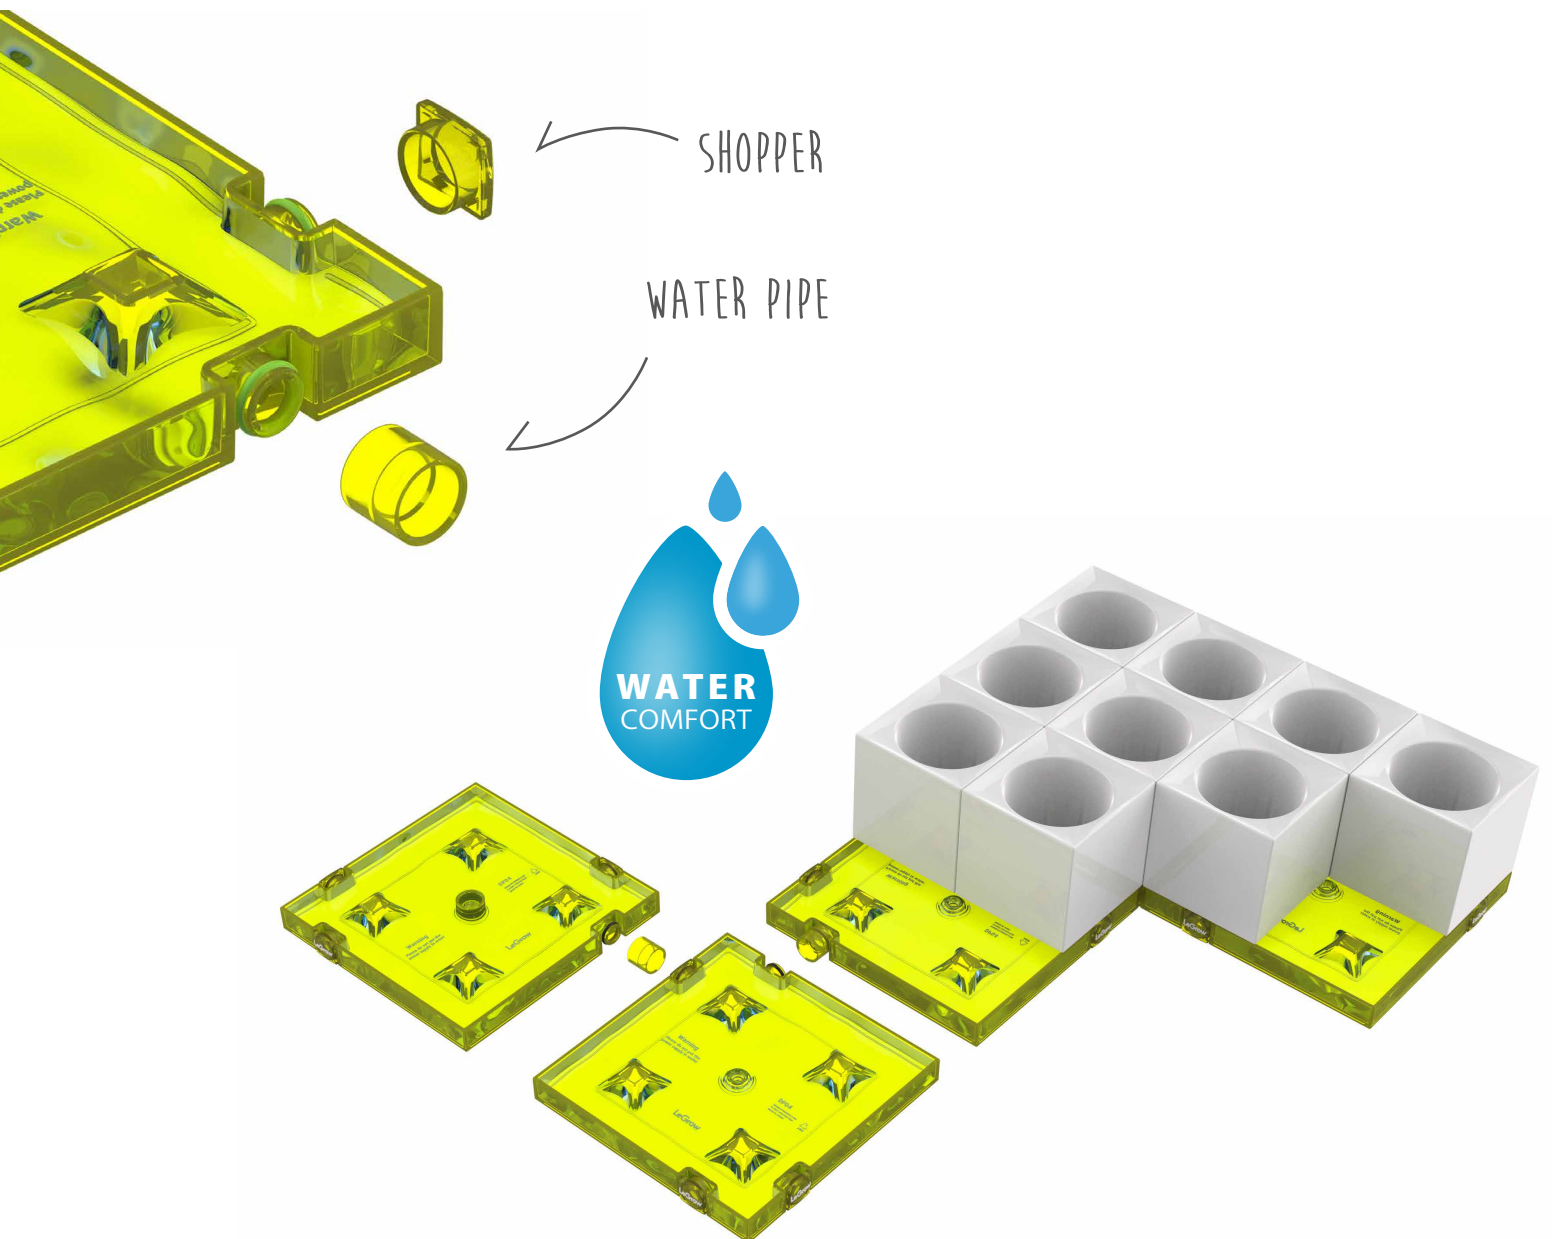

Our two-bulb LED grow lamp provides nourishing light for a variety of plants. It can be set in 12-hour increments so that your plants get the light they need to flourish. Generating up to 50,000 Lux and height adjustable, our lamp is perfect for winter growing.

SUNSHINE INDOOR

3. WATER

Modular self-water tray

4. HUMIDITY

Keep air humidity

The missing link to growing plants. The #1 cause of plants dying indoors is from lack of moisture in the air. This could be from heating, air conditioning, or a desert environment. LeGrows compact, beautifully designed humidifier adds moisture to the air and also acts as a water storage device for convenience. Small but powerful, this humidifier can release more than 30 ml of water per hour for up to 6 hours.

5. POWER

Waterproof

The power of LeGrow. 4 USB plugs suitable for any electronic device.

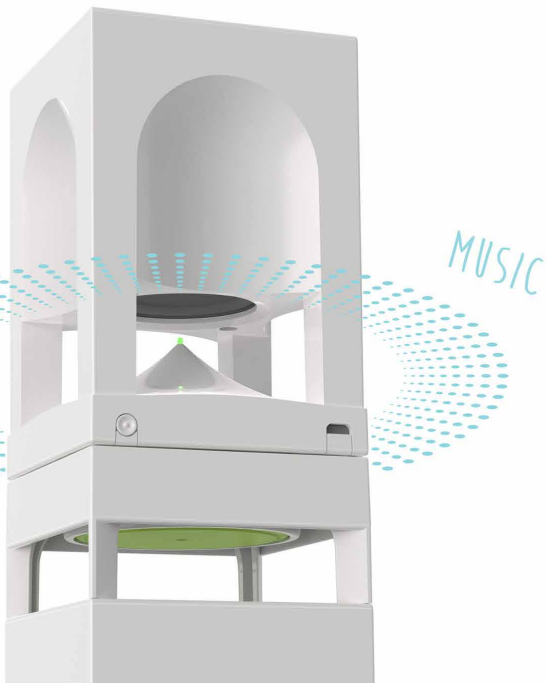

6. TRAYS

7. MUSIC & VERTICAL PLANTER

Speaker

- Low maintenance
- 2 speakers become stereo
- 10 units is broadcast

MUSIC FROM THE FOREST

8. MOSS PLANTER

Moisturizing breathable

- Low maintenance
- Excrete excess water
- Hold up to 7 days water
- Water receiving tray
