## Important:

1. Before you begin: Lay out all parts on a clean surface to check if the tags and numbers are correct.
2. When assembling the drawer, make drawer bottom handle and the drawer wooden handle remain parallel.
3. Please note some accessories are unmarked, and you can match the number according to the shape.
4. We highly recommend you to watch the installation guide video on our Amazon product page when you begin to assemble the Drawer Chest.
