

## Closed type zero sequence current transformer

Residual current transformer leakage signals are used to extract monitoring circuits, Ensure the leakage detection accuracy and reliability of key parts, Cooperate with electrical fire monitor detector.

35mm card rail installation accessories

### Characteristic

- Good linearity
- High sensitivity
- Built-in shielding layer
- Sub-plate mount/Din-rail installation

### Installation diagram

Primary threading method:

### Product application

- High-rise buildings
- Dangerous place
- Power supply system in public places
- Unit power supply system in residential buildings

### Product advantage

- Economic and practical
- Closed design, easy installation
- Products with balance and overload characteristic features

Typical technical index:

- Material of core——Nanocrystalline
- Working voltage——Phase voltage  $\leq 720V$
- Working temperature—— $-25^{\circ}C \sim +70^{\circ}C$
- Storage temperature—— $-35^{\circ}C \sim +85^{\circ}C$
- Frequency range—— $20Hz \sim 20KHz$
- Dielectric strength——Output/Outer shell AC 3.5KV/1min 5mA 50Hz

Technical Parameters table ( The following parameters are typical values, and the actual values are subject to the actual measurement of products )

Note

Primary rated test current	1000	mA	Can be made according to customer's requirement
Secondary rated output current	0.5	mA	Can be made according to customer's requirement
Turns ratio	1: 2000		Can be made according to customer's requirement
Rated continuous thermal current	2000	mA	
Accuracy	1	%	
Load resistance	<1K	$\Omega$	For reference only
Weight	250	g	For reference only

ZCT045BT (Crimping terminal output)

ZCT045BL (Leading wire output)

Current output type

Secondary is not allowed to open.

Current output type

Secondary is not allowed to open.

Specifications of lead wire:  $0.2mm^2$  Two core shielded wire

The length of lead wire: 1m

Two core color: Red、White

**Outline size (in mm±0.5) :**

(ZCT045BL The lower left corner of the outgoing line is subject to the real object)

**Application diagram:**

**Three phase line**

**Single phase line**
